Recorders to Zucchini Seeds Mark Robison, Lindley Shedd, 2017-05-30 This exploration of the range of options for a library of things collection demonstrates what has been implemented successfully and offers practical insights regarding these nontraditional projects from the development of concepts to the everyday realities of maintaining these collections What services libraries provide and how they function in their communities is constantly being reconsidered and redefined One example of this is the trend of experimenting with building circulating collections of nonliterary things such as tools seeds cooking equipment bicycles household machinery and educational materials by drawing on traditional library functions and strengths of acquisition organization and circulation *Audio Recorders to Zucchini Seeds Building a Library of Things* enables you to consider the feasibility of creating a specific type of thing collection in your library and get practical advice about the processes necessary to successfully launch and maintain it from planning and funding to circulation promotion and upkeep This contributed volume provides a survey of library of things projects within the United States from both public and academic libraries offering real world lessons learned from these early experiments with nontraditional collections The authors offer practical insights from their projects from the development of their initial ideas to the everyday realities of maintaining and circulating these collections including cataloging space needs safety concerns staff training circulation marketing and assessment The contributed chapters are organized thematically covering things collections that encompass a wide variety of objects first followed by collections with a community building focus seeds recreation tools and those that serve an educational purpose such as curriculum centers children s toys or collections that support a university curriculum The last section addresses collections that support media production

The Content Trap Bharat Anand, 2016-10-18 My favorite book of the year Doug McMillon CEO Wal Mart Stores Harvard Business School Professor of Strategy Bharat Anand presents an incisive new approach to digital transformation that favors fostering connectivity over focusing exclusively on content NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Companies everywhere face two major challenges today getting noticed and getting paid To confront these obstacles Bharat Anand examines a range of businesses around the world from The New York Times to The Economist from Chinese Internet giant Tencent to Scandinavian digital trailblazer Schibsted and from talent management to the future of education Drawing on these stories and on the latest research in economics strategy and marketing this refreshingly engaging book reveals important lessons smashes celebrated myths and reorients strategy Success for flourishing companies comes not from making the best content but from recognizing how content enables customers connectivity it comes not from protecting the value of content at all costs but from unearthing related opportunities close by and it comes not from mimicking competitors best practices but from seeing choices as part of a connected whole Digital change means that everyone today can reach and interact with others directly We are all in the content business But that comes with risks that Bharat Anand teaches us how to recognize and navigate Filled with conversations with key players and in depth dispatches from the front lines of digital change *The Content Trap* is

an essential new playbook for navigating the turbulent waters in which we find ourselves Praise for The Content Trap A masterful and thought provoking book that has reshaped my understanding of content in the digital landscape Ariel Emanuel co CEO WME IMG The Content Trap is a book filled with stories of businesses from music companies to magazine publishers that missed connections and could never escape the narrow views that had brought them past success But it is also filled with stories of those who made strategic choices to strengthen the links between content and returns in their new master plans The book is a call to clear thinking and reassessing why things are the way they are The Wall Street Journal

Electric Airplanes and Drones Kevin Desmond,2018-10-04 Attempts at electric powered flight date to well before the 19th century Battery weight and low energy output made it impractical until the 1990s when the advent of lightweight materials more efficient solar power improved engines and the Li Po lithium polymer battery opened the skies to a wide variety of electric aircraft The author describes the diverse designs of modern electric flying machines from tiny insect styled drones to stratospheric airships and explores developing trends including flying cars and passenger airliners Understanding

Terrorism Innovation and Learning Magnus Ranstorp,Magnus Normark,2015-04-24 This book examines the role of terrorist innovation and learning in theory and practice and in the context of three specific EU case studies It is often said that terrorist groups are relatively conservative in character operating in a technological vacuum relying almost exclusively on bombs and bullets This observation masks increasing complexity and creativity and innovation within terrorist groups and one of the most distinguishing features of al Qaeda s terrorist operations is its propensity for remarkable innovation This book examines how and why terrorist groups innovate more generally and al Qaeda related terrorist plots in Europe more specifically The starting point for this book was twofold Firstly to examine the issue of innovation and learning more generically both in theory within specific themes and within the context of al Qaeda s influence on this process Secondly this book examines the evolution of specific al Qaeda related plots in three specific northern EU states the United Kingdom Denmark and Germany where there has been a significant volume of planned failed and executed terrorist plots In particular these case studies explore signs of innovation and learning This book will be of much interest to students of terrorism and counter terrorism political violence security studies and IR in general **Federal Register** ,2013-08 **De-escalating**

Threat: The Psychophysiology of Police Decision Making Judith Andersen,Eamonn Patrick Arble,Peter Ian Collins,2020-07-08 **INFOFISH International** ,2006 **The Psychology of Radicalization and Terrorism** Willem

Koomen,Joop Van Der Pligt,2015-11-19 Terrorism and radicalization have a long history but in recent years their prominence has been a particularly conspicuous and influential feature of the global political landscape This important book presents an overview of the processes involved in radicalization and terrorism and introduces a systematic framework which captures the most crucial individual and social factors involved in determining these processes The authors begin by considering the possible role of prejudice economic deprivation and discrimination and the cognitive responses and emotions they can trigger

Such responses tend in turn to increase the importance of group membership and promote intergroup differentiation and polarization a process which is often accompanied by more pronounced and more extreme religious and ideological beliefs The book also describes the role of cultural values and social climate in processes of radicalization as well as the role of personality factors and demographics such as age and marital status As for violent terrorist action itself this final most radical stage is elicited by a number of group factors such as groupthink isolation and leadership Certain cognitive mechanisms for example dehumanizing the target and attributing responsibility elsewhere can also provide excuses for violence The book explores why some groups turn to violence and others don t and it addresses processes of disengagement deradicalization programs and other methods used to inhibit the spread of radicalization and terrorism The Psychology of Radicalization and Terrorism takes a unique and systematic approach to a vital topic integrating knowledge from diverse literatures and using social psychology as a basis for comprehending human behaviour It will be essential reading for students and researchers from all disciplines seeking a greater understanding of terrorism and violent political conflict in all its forms
