have a limited scope and don't take into account the practical realities of developing sexuality. The Pride Guide is written explicitly for the almost ten percent of teenagers who identify as gay, lesbian, bisexual, trans, or any of the unique identities that are not heterosexual or cisgendered. It explores sex, dating, relationships, puberty, and both physical and online safety in one resource. The issue today is not whether or not queer youth will get sex education. The issue is how and where they will gather information and whether or not the information they gather will be applicable, unreliable, or exploitative. Equipping teens and their families with knowledge and self-confidence, this work provides the best protection against the unfortunate consequences that sometimes accompany growing up with an alternative gender or identity. With real-world information presented in a factual and humorous way, responsible adults can teach queer youth to and how to protect themselves, to find resources to explore who they are and to interact with the world around them while being true to themselves and respectful of others. Written with these issues in mind, The Pride Guide covers universal topics that apply to everyone, such as values, clarification, digital citizenship, responsibility, information regarding abstinence as well as indulgence, and an understanding of the consequences and results of both action and inaction. For LGBTQ youth, this is a resource containing information on the unique issues queer youth face regarding what puberty looks like, particularly for trans youth, dating skills, and violence, activism, personal safety, and, above all, pride. Parents and other supportive adults who are motivated to educate themselves and who are interested in gaining some tools and skills around making these necessary conversations less uncomfortable and more effective will benefit from this book. The go-to resource for making informed decisions, The Pride Guide is indispensable for teens, parents, educators, and others hoping to support the safe journey of LGBTQ teens on their journey of discovery.
