

Student Exploration: Half-life

Background: Although some things change over time, scientists use half-life to describe how fast some substances change.

A fast-changing substance has a **short** half-life. A **substance** whose half changes very quickly has a **short** half-life. A **substance** whose half changes very slowly has a **long** half-life. A **substance** whose half changes very slowly has a **long** half-life.

What half-life does a substance have if it changes very slowly? The half-life of a substance is the time it takes for the substance to change by half.

Red dots: Parent substance Green dots: Daughter substance

Half-life is:
