The present research has some limitations. First, the sample was not representative of the general population of the United States. Second, the study was cross-sectional, and thus cannot establish causality. Third, the study did not control for other factors that may influence the relationship between the variables. Finally, the study did not include a control group.

This article reports on a series of experiments that investigated the effects of a computer-based training program on the performance of a simulated driving task. The program was designed to teach drivers the correct use of the vehicle's controls and to provide feedback on their performance. The results of the experiments showed that the program was effective in improving drivers' performance on the simulated driving task. The program was also found to be user-friendly and enjoyable to use. The authors conclude that the program has the potential to be used as a training tool for new drivers and as a refresher course for experienced drivers.

The Chinese Constitution of Central Asia N.

Godehardt,2014-03-21 China's commitments in Central Asia illustrate how regional foreign policy works and how long standing principles of Chinese foreign policy might be revised in the near future China's rise has moved Asia which is why it seems that what we have traditionally regarded as the geographic and political scope of Asia might actually considerably change in the near future Nadine Godehardt gives crucial insights into the Chinese expert discourse on Central Asia analyzing how Chinese experts define Central Asia when they talk and write about policy issues related to China's immediate Western neighbourhood In this context she gives an inside perspective on Chinese voices whose meanings are rarely examined in Chinese International Relations studies

Historical Dictionary of the Arab Uprisings Aomar

Boum,Mohamed Daadaoui,2020-03-10 The Arab uprisings that swept the Middle East and North Africa in the period from 2011-2012 left an indelible mark on the socio-political landscape of the region But that mark was not consistent across the region while some countries underwent dramatic popular social and political changes others teetered on the brink or were left with the status quo intact Street revolutions toppled despotic regimes in Tunisia Libya and momentarily in Egypt while mounting serious challenges to authoritarian regimes in Syria and Yemen Algeria's entrenched bureaucratic-cum-military authoritarian system proved resilient until the recent events of early 2019 which forced the resignation of President Abdelaziz Bouteflika before the end of his term on 28 April 2019 As in Algeria protestors in Sudan succeeded after months of demonstrations in overthrowing the government of Omar al-Bashir Several Arab monarchies still appear stable and have managed to weather the tempest of the Arab revolutions albeit not without fissures showing in the edifice of their states accompanied by some minor constitutional changes Where Tunisians Egyptians Yemenis Syrians and Libyans demanded regime changes in their political systems protesters in the Arab monarchies have called on the kings and emirs to reform their political system from the top down indicating the sizeable monarchical advantage Historical Dictionary of the Arab Uprisings contains a chronology an introduction and an extensive bibliography The dictionary section has over 500 cross-referenced entries on the terms persons and events that shaped the Arab Spring uprisings This book is an excellent resource for students researchers and anyone wanting to know more about the Arab Uprisings

***The Future, Declassified* Mathew**

Burrows,2025-06-25 Twenty-five years ago when Mathew Burrows went to work for the CIA as an intelligence analyst the world seemed frozen Then came the fall of the Berlin Wall and the implosion of the Soviet Union suddenly unpredictability became a universal theme and foresight was critical For the past decade Burrows has overseen the creation of the Global Trends report the key futurist guide for the White House Departments of State and Defense and Homeland Security Global Trends has a history of making bold predictions and being right In 2004 it argued that al-Qaeda's centralized operations

would dissolve and be replaced by groups cells and individuals the very model of the 2012 Boston bombings In 2008 it included a scenario dubbed October Surprise imagining a devastating late season hurricane hitting an unprepared New York City In The Future Declassified Burrows for the first time has expanded the most recent Global Trends report into a full length narrative forecasting the tectonic shifts that will drive us to 2030 A staggering amount of wholesale change is happening from unprecedented and widespread aging to rampant urbanization and growth in a global middle class to an eastward shift in economic power and a growing number of disruptive technologies Even our physical geography is changing as sea levels rise and faster commercial shipping routes open up through a warming Arctic region The book concludes with its most provocative section four fictional paths to 2030 with imagined storylines and characters based on analysis by the most authoritative figures in the intelligence community As Burrows argues we are living through some of the greatest and most momentous developments in history Either we take charge and direct those or we are at their mercy The stakes are particularly high for America s standing in the world and for ordinary Americans who want to maintain their quality of life Running the gamut from scary to reassuring this riveting book is essential reading **Push Back** Judith Large,2016-12-15

In 2009 after decades of conflict the Sri Lankan government proclaimed the decisive defeat of the Liberation Tamil Tigers of Elam Subsequently the state proved resistant to attempts by the UN and other international bodies to promote post war reconciliation or reform In this incisive new work Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising Sinhalese nationalism the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace Push Back is vital reading not only for those interested in Sri Lanka but also for those concerned about the wider implications of the conflict for human rights peace making and geopolitics Essays on the History of Parliamentary Procedure Paul Evans,2017-12-28 8 February 2015 marked the 200th anniversary of the birth of Thomas Erskine May May is the most famous of the fifty holders of the office of Clerk of the House of Commons His continued renown arises from his Treatise upon the Law Privileges Proceedings and Usage of Parliament first published in 1844 and with its 25th edition currently in preparation It is known throughout those parts of the world that model their constitutional arrangements on Westminster as the Bible of Parliamentary Procedure This volume celebrates both the man and his book Bringing together current and former Clerks in the House of Commons and outside experts the contributors analyse May s profound contribution to the shaping of the modern House of Commons as it made the transition from the pre Reform Act House to the modern core of the UK s constitutional democracy in his lifetime This is perhaps best symbolised by its enforced transition between 1834 and 1851 from a mediaeval slum to the World Heritage Palace of Westminster which is the most iconic building in the UK The book also considers the wider context of parliamentary law and procedure both before and after May s time It constitutes the first sustained analysis of the development of parliamentary procedure in over half a

century attempting to situate the reforms in the way the central institution of our democracy conducts itself in the political contexts which drove those changes The Child in Post-Apocalyptic Cinema Debbie Olson, 2015-03-06 The child in many post apocalyptic films occupies a unique space within the narrative a space that oscillates between death and destruction faith and hope The Child in Post Apocalyptic Cinema interrogates notions of the child as a symbol of futurity and also loss By exploring the ways children function discursively within a dystopian framework we may better understand how and why traditional notions of childhood are repeatedly tethered to sites of adult conflict and disaster a connection that often functions to reaffirm the rightness of past systems of social order This collection features critical articles that explore the role of the child character in post apocalyptic cinema including classic recent and international films approached from a variety of theoretical methodological and cultural perspectives
