The Metaphysical Theory of Egalitarian Economics Jo M. Sekimonyo,2018-11-18

What is the catalyzer of the ballooning the social economic and social gap between the gang of robber barons and captains of industry and the rest By the end of the twentieth century every social commerce and trade and political constructs underwent more than rhinoplasties in a desperate effort to escape responsibility A global system underlying the extremely unequal distribution of wealth and power has kept the profane views of the laboring class and hierarchical arrangements between commerce and trade actors the same Conspiracy rules and success myths do work Every existing doctrine compresses the ambiance of the love affair with untamable disillusion Thanks to capitalism as the story goes poor white women and children as humans was recognized Somehow everyone else also found their way through the golden age of self enslavement into the human centipede We have all metamorphosed into efficient slaves **Places of Excellence** Martin Tröndle,Johanna Schindler,2021-04-19 This book investigates how excellence and reputability are formed performed and perceived at well renowned international higher education institutions Along six detailed ethnographic case descriptions including University of Warwick Goldsmiths New York University School of the Art Institute Chicago Ohio State University and HEC Montr al it asks how master s programs in arts management and cultural policy achieved reputability and how this affects the everyday academic live A cross case analysis revealed a set of overall drivers that seem to have a great impact on the reputation of the studied programs By focusing on the design and content of the teaching environments as well as on motivational emotional and social aspects of the learning situation at these six higher education institutions the book offers a holistic understanding of reputability and excellence *A History of the Office and Office Work* Rob Harris,2025-04-08 This book brings together the office and office working as an economic construct as a business function as a building type and as a mode of work It explores social and economic relations and it traces the evolution of work and the environment and equipment needed to support it over the last 400 years In so doing it helps to fill a void in popular understanding of the office The role of the office has been examined over the past three years in ways that it has never been examined before Whilst the existential crisis arising from COVID 19 has settled somewhat there remain big questions over the future of office workers and office real estate This book is a timely well researched and fascinating contribution to the debate Rob Harris explores how the nature of work has changed and continues to change placing the events surrounding COVID 19 into a longer term perspective and asking what is the future of the office Will it go through a radical reinvention How will office work evolve in the future Whither office buildings The book emphasises the continuum of change and that today s events are simply the latest stage of change rather than something entirely novel This book will be of interest to anyone with a stake in the built environment whether as an investor occupier owner manager or advisor It is equally accessible to those with a non technical background including students on courses such as economic history economics geography real estate and urban planning *Pearson Edexcel International GCSE (9-1) History: Paper 2 Investigation and Breadth Studies* Rob Bircher,Kirsty Taylor,Jennifer McCullough,Michael Scott-Baumann,2021-09-06 Exam board Pearson Edexcel Level International GCSE 9 1
