**Serving Size** is based on the **amount of food that is customarily eaten at one time** and is not a recommendation of how much to eat. The nutrition information listed on the label is usually based on one serving of the food; however, some containers may also have information displayed per package.

**Calories** refer to the **total number of calories** in a serving of the food. To achieve or maintain a healthy body weight, balance the number of calories you eat and drink with the number of calories your body uses. 2,000 calories a day is used as a general guide for nutrition advice. Learn your number at [www.choosemyplate.gov/resources/MyPlatePlan](http://www.choosemyplate.gov/resources/MyPlatePlan).
