Big Data Platforms and Applications Florin Pop, Gabriel Neagu, 2021-09-28 This book provides a review of advanced topics relating to

the theory research analysis and implementation in the context of big data platforms and their applications with a focus on methods techniques and performance evaluation The explosive growth in the volume speed and variety of data being produced every day requires a continuous increase in the processing speeds of servers and of entire network infrastructures as well as new resource management models This poses significant challenges and provides striking development opportunities for data intensive and high performance computing i e how to efficiently turn extremely large datasets into valuable information and meaningful knowledge The task of context data management is further complicated by the variety of sources such data derives from resulting in different data formats with varying storage transformation delivery and archiving requirements At the same time rapid responses are needed for real time applications With the emergence of cloud infrastructures achieving highly scalable data management in such contexts is a critical problem as the overall application performance is highly dependent on the properties of the data management service

Polity and Crisis Massimo Fichera, Sakari Hänninen, 2016-04-22 European integration is an open ended ongoing process which has been deeply challenged by integral world capitalism This study explores the present EU foundational dilemma looking at the problematic relationship between the ideal model of integration and the reality of the 21st century Including contributions from leading theorists this volume explores the ways and extent to which the present European crisis could create a politico legal space for new possibilities and opportunities for action The authors discuss the current role of the EU and whether it aspires to be a democratic polity or a functional organization based on inter governmental bargaining The chapters question whether the future of European integration after the crisis will be paved by decisions which conflict with its Treaty basis and how it might come up with alternatives which would do more than echo the compulsions of the global market Issues are analysed from a historical perspective to see what can be learnt from its past and to explore the options for the future With contributions from prominent international legal and political scholars the book will be of interest to academics students and policy makers working in these areas
