International Business Success in a Strange Cultural Environment Mamarinta P. Mababaya,2003 The book focuses on the cultural aspect of the author s published PhD thesis entitled The Role of Multinational Companies in the Middle East The

Case of Saudi Arabia which he has carried out at the University of Westminster. It explores the success of multinational enterprises doing business in Saudi Arabia vis-à-vis their cultural awareness and responsiveness. The empirical findings discussed in this book reveal that international business success in a strange cultural environment depends partly on the ability of multinational managers to understand the local culture. The cultural subject in this book pertains to Islam in its entirety. The findings may seem strange to many readers who are not familiar with Islamic culture in its purest form. Many newcomers to Saudi Arabia, especially non-Muslim foreign investors, businessmen, and workers, often find many things strange about the Kingdom, its people, and cultural values. Some feel it odd that many Muslims give more importance to prayer than business. Some are disappointed when they find commercial establishments like shopping centres closed as Muslim workers go to the mosques to attend to their daily prayers. Business visitors find strange the fact that in the midst of their meetings with their Saudi or Muslim counterparts, the latter excuse themselves for prayer. They have these strange feelings due to their lack of understanding of true Islamic culture. The cultural aspect of this book will help businessmen and concerned institutions worldwide gain understanding of Islam and reconcile their cultural differences with the Muslim world. Through this book, international companies will be able to have a better understanding of authentic Islamic culture, which will help them gain greater competitive advantages in the Saudi marketplace.

International Business: Joint ventures and modes of entry Alan M. Rugman, 2002. This comprehensive four-volume set includes all major contributions to the field of international business. It also includes key writings in the areas of international political economy and on regional and national issues.

International Business Oded Shenkar, Yadong Luo, Tailan Chi, 2021-12-20. This fully revised and updated fourth edition of *International Business* offers an action-focused practical approach to the topic, helping students understand the global business environment and its repercussions for executives. The book provides thorough coverage, delving into fundamental concepts and theory, the cultural, political, and economic environment, international business strategies, and even functional management areas. More comprehensive than competing books, this new edition of *International Business* includes a new chapter on the digitalization of the global economy and its implications for firm strategy and organizations. New examinations of the forces of de-globalization, implications of rising trade protectionism, challenges of geopolitical conflicts, and a friction framework for understanding the effects of cultural differences. Enriched and expanded discussions about potential reconfigurations of global value chains following the COVID-19 pandemic, changing perspectives on the role of the government with renewed attention to industrial policy, shifts in regional integration with the emergence of such new trade blocks as CPTPP and RCEP, and fresh insights on factors influencing a country's balance of payments. Strengthened, expanded global cases, examples, and industry and country mini-cases that give students practical insight into the ways companies actually behave within a competitive global environment. Also featuring a companion website with a test bank, PowerPoint slides, and instructor's manual, this book is ideal for students and instructors of any international business course at

undergraduate or postgraduate level International Commerce ,1967 **International Business** Gupta C.B., International Business **Global Trade in the Emerging Business Environment** Muhammad Mohiuddin, Jingbin Wang, Md. competitive advantage Second **Developing a Successful Subsidiary Strategy** Paul Lyons, 2023-09-18 Most books on business strategy approach the subject from a corporate perspective covering topics such as the vision for the business the marketplace competition and differentiation However the reality is that most managers work in sub units or subsidiaries of the business and they are not involved in corporate strategy formulation Their strategic concerns are with the positioning and future trajectory of their own units within the complex internal ecosystem in which they exist If these units are to survive and grow the middle managers responsible for them must plan their future maximise their value add and compete for resources within the internal market of their corporations Such internal markets are becoming increasingly volatile due to general economic conditions but also given the questioning of globalisation and increasing corporate concerns about the frailties of international supply chains as brought into sharp focus by the COVID 19 crisis and the war in Ukraine This book provides practical perspectives for these business unit managers and a step by step toolkit that can be used by management teams to develop a successful subsidiary strategy that acknowledges these challenges while maximising their contribution to corporate objectives It is based on the author's 30 years of experience as an executive in a complex multinational IBM organisation supplemented by academic study at Master's and PhD levels The material covered has been verified through workshops over a 3 year period with the senior leadership teams of over 30 multinational subsidiaries operating from Ireland
