Office of Education,1972 **Qualitative Researching with Text, Image and Sound** Paul Atkinson,Martin W Bauer,George Gaskell,2000-06-22 This excellent text will introduce advanced students and remind senior researchers of the availability of a broad range of techniques available for the systematic analysis of social data that is not numeric It makes the key point that neither quantitative nor qualitative methods are interpretive and at the same time demonstrates once and for all that neither a constructivist perspective nor a qualitative approach needs to imply abandonment of rigor That the chapters are written by different authors makes possible a depth of expertise within each that is unusually strong Susanna Hornig Priest Texas A Author of Doing Media Research Qualitative Researching with Text Image and Sound off The Sign of the Cross Daniel Rancour-Laferriere,2011-12-31 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere s book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion **Resources in Education** ,1980 Byte ,1996-05
