Fifth edition Thomas Thellusson Carter, 1871 The garden of the soul, or, A manual of spiritual exercises and instructions for Christians [by R. Challoner]. New, and amended ed Richard Challoner (bp. of Debra.), 1874 **Indian Antiquary**, 1895 **Book of Mormon Student Manual** The Church of Jesus Christ of Latter-day Saints, 2009-07 *Kissing Christians* Michael Philip Penn, 2013-10-09 In the first five centuries of the common era the kiss was a distinctive and near ubiquitous marker of Christianity Although Christians did not invent the kiss Jewish and pagan literature is filled with references to kisses between lovers family members and individuals in relationships of power and subordination Christians kissed one another in highly specific settings and in ways that set them off from the non-Christian population Christians kissed each other during prayer Eucharist baptism and ordination and in connection with greeting funerals monastic vows and martyrdom As Michael Philip Penn shows in *Kissing Christians* this ritual kiss played a key role in defining group membership and strengthening the social bond between the communal body and its individual members *Kissing Christians* presents the first comprehensive study of the ritual kiss and how controversies surrounding it became part of larger debates regarding the internal structure of

Christian communities and their relations with outsiders Penn traces how Christian writers exalted those who kissed only fellow Christians proclaimed that Jews did not have a kiss prohibited exchanging the kiss with potential heretics privileged the confessor's kiss prohibited Christian men and women from kissing each other and forbade laity from kissing clergy Kissing Christians also investigates connections between kissing and group cohesion kissing practices and purity concerns and how Christian leaders used the motif of the kiss of Judas to examine theological notions of loyalty unity forgiveness hierarchy and subversion Exploring connections between bodies power and performance Kissing Christians bridges the gap between cultural and liturgical approaches to antiquity It breaks significant new ground in its application of literary and sociological theory to liturgical history and will have a profound impact on these fields The Deepest Sense Constance Classen, 2012-05-15 From the softest caress to the harshest blow touch lies at the heart of our experience of the world Now for the first time this deepest of senses is the subject of an extensive historical exploration The Deepest Sense A Cultural History of Touch fleshes out our understanding of the past with explorations of lived experiences of embodiment from the middle ages to modernity This intimate and sensuous approach to history makes it possible to foreground the tactile foundations of Western culture the ways in which feelings shaped society Constance Classen explores a variety of tactile realms including the feel of the medieval city the tactile appeal of relics the social histories of pain pleasure and affection the bonds of touch between humans and animals the strenuous excitement of sports such as wrestling and jousting and the sensuous attractions of consumer culture She delves into a range of vital issues from the uses and prohibitions of touch in social interaction to the disciplining of the body by the modern state from the changing feel of the urban landscape to the technologization of touch in modernity Through poignant descriptions of the healing power of a medieval king's hand or the grueling conditions of a nineteenth century prison we find that history far from being a dry and lifeless subject touches us to the quick Laboring to Play Melanie Dawson, 2013-09-05 A compelling analysis of how middling Americans entertained themselves and how these entertainments changed over time The changing styles of middle class home entertainments Melanie Dawson argues point to evolving ideas of class identity in U S culture Drawing from 19th and early 20th century fiction guidebooks on leisure newspaper columns and a polemical examination of class structures Laboring to Play interrogates the ways that leisure performances such as parlor games charades home dramas and tableaux vivants encouraged participants to test out the boundaries that were beginning to define middle class lifestyles From 19th century parlor games involving grotesque physical contortions to early 20th century recitations of an idealized past leisure employments mediated between domestic and public spheres individuals and class based affiliations and ideals of egalitarian social life and visible hierarchies based on privilege Negotiating these paradigms home entertainments provided their participants with unique ways of performing displays of individual ambitions within a world of polite social interaction Laboring to Play deals with subjects as wide ranging as social performances social history etiquette and gentility literary

Davis, 2024-06-10 *Moving Beyond Theoria Towards Theosis* focuses on the telos of man as understood in Plato's theoria envisioned in the allegory of the cave and early Christian reinterpretation of theoria as theosis In his famed allegory of the cave Plato maintains that real life exists beyond our base perceptions of reality and is found in the realm of ideas Theoria is eternal rest in this realm and is understood as the telos of mankind Plato's theoria underwent change as it was reinterpreted under middle Platonic and neo Platonic thought These systems incorporated a more mature idea of the divine than Plato but still minimized the material world This book explores how early Christianity inherited Plato's cosmology and terminology Theoria was also reinterpreted within the Christian context Eventually the term was abandoned for theosis Theosis is beyond theoria as it includes contemplation of the forms as well as union with the source of the forms and the affirmation of the material realm In this volume Justin A Davis shows how the Orthodox use of icons can be key to understanding theosis The icon is a material object that connects to a higher reality and ultimately toward union with the divine Plato's cosmology is collapsed and transfigured in union with the uncreated energy of God Icons are the depiction of spiritual ascesis and the new telos of man theosis *The Ursuline Manual* Catholic Church, 1857 **Worship in the Spirit** James H.
