Remember that safety is the first and last concern of you and your students. Check all accelerometer rubber bands before coming to the park. Require students to have one hand on the ride at all times. Many of the values you will find on this page were done experimentally but most were based on values provided by Knott's Berry Farm, so allow for some variations. If you would like to participate in the planning and selection of ride questions and solutions, sign up in the Boardwalk Ballroom. Please keep this page "teacher confidential."
