Harvey II,2012-10-02 This practical guide clarifies why school librarians need to be part of the professional development process in their schools and shows just how to achieve that goal To remain gainfully employed today s school librarian has to be a leader in the school To that end Adult Learners

Professional Development and the School Librarian encourages librarians to become instrumental in providing professional development to teachers and staff. The book begins by explaining why librarians should participate in designing and presenting professional development then goes on to provide tips, examples, and a complete model for doing this based on a system used at the author's school. Readers will discover how to determine what is practical and how to turn ideas into actions whether they want to implement a major initiative or start with something small. Most important, this book details how to become part of the professional development team in ways that are both relevant and meaningful to the teachers and staff involved. When these stakeholders understand what the librarian knows and how they can benefit, the librarian's sphere of influence will be expanded and a job just might be saved.

**Big Ideas for Little Kids** Thomas E. Wartenberg, 2014-05-01  
 Big Ideas for Little Kids includes everything a teacher, a parent, or a college student needs to teach philosophy to elementary school children from picture books. Written in a clear and accessible style, the book explains why it is important to allow young children access to philosophy during primary school education. Wartenberg also gives advice on how to construct a learner-centered classroom in which children discuss philosophical issues with one another as they respond to open-ended questions by saying whether they agree or disagree with what others have said.

Exploring Feelings for Young Children with High-Functioning Autism or Asperger's Disorder Dr. Anthony Attwood, Angela Scarpa, Anthony Wells, 2012-11-15  
 The Stress and Anger Management Program (STAMP) uses a cognitive-behavioral approach to encourage children who suffer from mood difficulties to explore and control their emotions. This practical manual outlines a dynamic and effective 9-session program designed specifically for young children with high-functioning autism or Asperger's syndrome.

Transforming Preschool Storytime Betsy Diamant-Cohen, Melanie A. Hetrick, 2013-06-18  
 According to recent research, the best way to make new connections in a child's brain is by building on something already known. A child who loves a book will listen to it repeatedly, maintaining interest. Using a selected book in a number of consecutive preschool storytimes but presenting it differently each time can help children learn new skill sets. This book presents a new approach to storytime, one that employs repetition with variety to create an experience which helps children connect and engage with the story on a higher level. Diamant-Cohen recently awarded the 2013 ASCLA Leadership and Professional Achievement Award, and Hetrick offers a year's worth of activities specifically designed to address multiple intelligences through a repetition-based process. Incorporating recent theories on developmental learning, this book includes scripts for 8 different books with enough activities to repeat each one for six weeks, along with lists of optional alternative books. Planning aids such as outlines of storytime sessions, a fill-in-the-blanks planning sheet, questions for evaluation, and tips for enhanced storytimes using props and crafts. Detailed but straightforward explanations of theory and research that will help readers communicate effectively with parents, caregivers, and other stakeholders. From setup to execution, here's everything you need to create and implement a successful, elevated storytime.

**More Mirrors in the Classroom** Jane Fleming, Susan Catapano, Candace M. Thompson, Sandy Ruvalcaba

Carrillo,2016-06-08 Nearly 30% of all public school children attend school in large or mid size cities totaling more than 16 million students in 22 000 schools For schools serving culturally and linguistically diverse populations and large numbers of children living in poverty a significant achievement gap persists Proponents of multicultural education often advocate for instruction with culturally relevant texts to promote inclusion compassion and understanding of our increasingly diverse society Less discussion has focused on the significant body of research that suggests that culturally relevant texts have important effects on language and literacy development By connecting the dots of existing research More Mirrors in the Classroom raises awareness about the critical role that urban children s literature can play in helping children learn to read and write In addition it provides practical step by step advice for increasing the cultural relevance of school curricula in order to accelerate literacy learning
