Max Nordau Gustave Larroumet, 1894 , **Jules Michelet** Michèle Hannoosh, 2019-07-25 Jules Michelet one of France's most influential historians and a founder of modern historical practice was a passionate viewer and relentless interpreter of the visual arts In this book Michèle Hannoosh examines the crucial role that art writing played in Michelet's work and shows how it decisively influenced his theory of history and his view of the practice of the historian The visual arts were at the very center of Michelet's conception of historiography He filled his private notes public lectures and printed books with discussions of artworks which for him embodied the character of particular historical moments Michelet believed that painting sculpture architecture and engraving bore witness to histories that frequently went untold that they expressed key ideas standing behind events and that they articulated concepts that would come to fruition only later This groundbreaking reevaluation of Michelet's approach to history elucidates how writing about art provided a model for the historian's relation to and interpretation of the past and thus for a new type of historiography one that acknowledges and enacts the historian's own implication in the history he or she tells **Standard Books** Charles Frederick Tweney, 1915 Handbook of the Economics of Art and Culture Victor A. Ginsburgh, David Throsby, 2006-09-13 Over the last 30 or 40 years a substantial literature has grown up in which the tools of economic theory and analysis have been applied to problems in the arts and culture Economists who have surveyed the field generally locate the origins of contemporary cultural economics as being in 1966 the year of publication of the first major work in modern times dedicated specifically to the economics of the arts It was a book by Baumol and Bowen which showed that economic analysis could illuminate the supply of and demand for artistic services the contribution of the arts sector to the economy and the role of public policy Following the appearance of the Baumol and Bowen work interest in the economics of the arts grew steadily embracing areas such as demand for the arts the economic functions of artists the role of the nonprofit sector and other areas Cultural economics also expanded to include the cultural or entertainment industries the media movies the publishing industry popular music as well as heritage and museum management property right questions in particular copyright and the role of new communication technologies such as the internet The field is therefore located at the crossroads of several disciplines economics and management but also art history art philosophy sociology and law The Handbook is placed firmly in economics but it also builds bridges across these various disciplines and will thus be of interest to researchers in all these different fields as well as to those who are engaged in
