

Welcome

Congratulations on your purchase of a Microsoft® wireless suite—which includes a wireless keyboard, wireless mouse, and a dual receiver. Setting up the devices takes a few simple steps, and then you can enjoy the freedom of wireless technology and the convenience of a clutter-free desktop.

1

Important! Install the Software

Your Microsoft wireless suite includes a CD with IntelliType Pro keyboard software and IntelliPoint mouse software. This software enables the unique features of your wireless devices and provides battery status information.

Note If you do not already have a mouse, you can connect the receiver before software installation so you can use your mouse during Setup.

To install IntelliType Pro keyboard software and IntelliPoint mouse software (Microsoft Windows® operating system)

1. Insert the software installation CD into the computer's CD drive.
If the Setup screen does not appear automatically, do the following:
 - Click the **Start** button, and then click **Run**.
 - Type [drive]:setup. For example, if your CD drive is drive E, type **esetup**.
2. Make sure the two checkboxes (for Microsoft IntelliType Pro and Microsoft IntelliPoint) are selected, and then click **Install**.
3. Follow the Setup Wizard instructions on the screen.
4. Restart the computer, if prompted to do so.

To install IntelliType Pro keyboard software and IntelliPoint mouse software (Macintosh)

Important Not all Microsoft wireless suites are compatible with Macintosh computers. For system requirements and compatibility listings, refer to the product packaging.

1. Insert the software installation CD into the computer's CD drive.
2. Double-click the **IntelliType Pro Installer** icon in the appropriate operating system folder. Follow the on-screen instructions, and then restart the computer, if prompted to do so, before proceeding.
3. Double-click the **IntelliPoint Installer** icon in the appropriate operating system folder. Follow the on-screen instructions, and then restart the computer, if prompted to do so, before proceeding.

2

Insert the Batteries

The keyboard and mouse each require batteries, which are included in the package. Whenever you insert batteries, always make sure all of them are new. Alkaline batteries are recommended.

Important Before boarding any aircraft, remove the batteries from the wireless keyboard and mouse. The wireless keyboard and mouse can transmit radio frequency (RF) energy, much like a cellular telephone, whenever batteries are installed and the mouse is activated either by touch or button press.
