Structural change and poverty

reduction in Ethiopia: Economy-wide analysis of the evolving role of agriculture Dorosh, Paul,Thurlow, James,Kebede, Frehiwot Worku,Ferede, Tadele,Taffesse, Alemayehu Seyoum,2018-09-06 This paper explores these issues for Ethiopia utilizing an economy wide computable general equilibrium CGE model based on a detailed social accounting matrix SAM We present the results of four alternative investment scenarios faster investment in i cities ii crop agriculture iii the rural non farm sector and agro industry and iv livestock The simulations suggest that investments in cities generate faster economic growth and structural transformation However given the large share of the population with incomes linked to agriculture and the rural economy investments in the rural economy are likely to continue to be more pro poor than urban public investments through the mid 2020s After the mid 2020s investments in cities become more pro poor In short though rapid economic growth and structural transformation have diminished the relative importance of the agricultural sector in Ethiopia s economy continued public investments in agriculture and the broader agri food system remain crucial for equity and poverty alleviation in Ethiopia as well as for reducing food import dependency

Soy, Globalization, and Environmental Politics in South America Gustavo de L. T. Oliveira,Susanna B. Hecht,2017-10-24 Soy in South America constitutes one of the most spectacular booms of agro industrial commodity production in the world It is the pinnacle of modernist agro industrial practices serving as a key nexus in food feed fuel production that underpins the agribusiness conservationist discourse of land sparing through intensification Yet soy production is implicated in multiple problems beyond deforestation ranging from pesticide drift and contamination to social exclusion and conflicts in frontier zones to concentration of wealth and income among the largest landowners and corporations This book explores in depth the complex dynamics of soy production from its diverse social settings to its transnational connections examining the politics of commodity and knowledge production the role of the state and the reach of corporate power in everyday life across soy landscapes in South America Ultimately the collection encourages us to search and struggle for agroecological alternatives through which we may overcome the pitfalls of this massive transnational capitalist agro industry This book was originally published as a special issue of The Journal of Peasant Studies

Advances in Groundwater Governance Karen G. Villholth,Elena Lopez-Gunn,Kirstin Conti,Alberto Garrido,Jac Van Der Gun,2017-12-14 This book addresses groundwater governance a subject internationally recognized as crucial and topical for enhancing and safeguarding the benefits of groundwater and groundwater dependent ecosystems to humanity while ensuring water and food security under global change The multiple and complex dimensions of groundwater governance are captured in 28 chapters written by a team of leading experts from different parts of the world and with a variety of relevant professional backgrounds The book aims to

describe the state of the art and latest developments regarding each of the themes addressed paying attention to the wide variation of conditions observed around the globe The book consists of four parts The first part sets the stage by defining groundwater governance exploring its emergence and evolution framing it through a socio ecological lens and describing groundwater policy and planning approaches The second part discusses selected key aspects of groundwater governance The third part zooms in on the increasingly important linkages between groundwater and other resources or sectors and between local groundwater systems and phenomena or actions at the international or even global level The fourth part finally presents a number of interesting case studies that illustrate contemporary practice in groundwater governance In one volume this highly accessible text not only familiarizes water professionals decision makers and local stakeholders with groundwater governance but also provides them with ideas and inspiration for improving groundwater governance in their own environment
