Let me begin by welcoming all of you to today's event and thanking (NAME OF PERSON WHO INTRODUCED YOU) for that kind introduction.

I'm very pleased to have been invited to speak here today on what I know is a very special day. It's special for the graduates, for their proud parents and grandparents, and for their very relieved teachers. Just wait until these students are graduating college. Then their parents will be the

Relieved ones.

As I begin, I have to say, I think the best speeches are those that have a great beginning, a memorable end, and not much in between. I will try then to make a great speech. Today is one of those great occasions when we get to celebrate our young people - their

The Class Heather Won Tesoriero, 2018-09-04 An unforgettable year in the life of a visionary high school science teacher and his award-winning students as they try to get into college, land a date for the prom, and possibly change the world. A complex portrait of the ups and downs of teaching in a culture that undervalues what teaching delivers. *The Wall Street Journal* Andy Bramante left his successful career as a corporate scientist to teach public high school and now helms one of the most remarkable classrooms in America. Bramante's unconventional class at Connecticut's prestigious yet diverse Greenwich High School has no curriculum tests, textbooks, or lectures and is equal parts elite research lab, student counseling office, and teenage hangout spot. United by a passion to learn, Mr. B's band of whiz kids set out every year to conquer the brutally competitive science fair circuit. They have won the top prize at the Google Science Fair, made discoveries that eluded scientists three times their age, and been invited to the Nobel Prize ceremony in Stockholm. A former Emmy-winning producer for CBS News, Heather Won Tesoriero embeds in this dynamic class to bring Andy and his gifted, all-too-human kids to life, including William, a prodigy so driven that he's trying to invent diagnostics for artery blockage and Alzheimer's but can't quite figure out how to order a bagel; Ethan, who essentially outgrows high school in his junior year and founds his own company to commercialize a discovery he made in the class; Sophia, a Lyme disease patient whose ambitious work is dedicated to curing her own debilitating ailment; Romano, a football player who hangs up his helmet to pursue his secret science expertise and develop a smart liquid bandage; and Olivia, whose invention of a fast test for Ebola brought her science fair fame and an appearance on *The Late Show* with Stephen Colbert. We experience the thrill of discovery, the heartbreak of failed endeavors, and perhaps the ultimate high: a yes from Harvard. Moving, funny, and utterly engrossing, *The Class* is a superb account of hard work and high spirits, a stirring tribute to how essential science is in our schools and our lives, and a heartfelt testament to the power of a great teacher to help kids realize their unlimited potential. Praise for *The Class*: Captivating Journalist Tesoriero left her job at CBS News to embed herself in Bramante's classroom for the academic year, and she does this so successfully a reader forgets she is even there. Her skill at drawing out not only Bramante but also the

A Chinese Rebel beyond the Great Wall TJ Cheng,Uradyn E. Bulag,Mark Selden,2023-10-24 A striking first person account of the Cultural Revolution in Inner Mongolia embedded in a close examination of the historical evidence on China's minority nationality policies to the present During the Great Leap Forward as hundreds of thousands of Chinese famine refugees headed to Inner Mongolia Cheng Tiejun arrived in 1959 as a middle school student In 1966 when the PRC plunged into the Cultural Revolution he joined the Red Guards just as Inner Mongolia's longtime leader Ulanhu was purged With the military in control and with deepening conflict with the Soviet Union and its ally Mongolia on the border Mongols were accused of being nationalists and traitors A pogrom followed taking more than 16 000 Mongol lives the heaviest toll anywhere in China At the heart of this book are Cheng's first person recollections of his experiences as a rebel These are complemented by a close examination of the documentary record of the era from the three coauthors The final chapter offers a theoretical framework for Inner Mongolia's repression The repression's goal the authors show was not to destroy the Mongols as a people or as a culture it was not a genocide It was however a politicide an attempt to break the will of a nationality to exercise leadership of their autonomous region This unusual narrative provides urgently needed primary source material to understand the events of the Cultural Revolution while also offering a novel explanation of contemporary Chinese minority politics involving the Uyghurs Tibetans and Mongols
