**No Last Place to Rest** Dineo Skosana, 2025-02 Examines the impact of coal mining on the lives of rural communities in post apartheid South Africa **No Last Place to Rest** Coal Mining and Dispossession in South Africa is an exploration of the ongoing struggles faced by families in the Mpumalanga and KwaZulu Natal provinces of South Africa whose lives have been upended by the relentless expansion of coal mining operations These regions burdened with the task of fulfilling the nation's energy needs and boosting the country's economy witness daily the harsh realities of dispossession that extend far beyond the mere loss of property Dineo Skosana presents a compelling argument that dispossession remains a present day reality and crisis contradicting the notion that it is merely a relic of the past in the post apartheid landscape It challenges the narrow perspective that equates land loss in material and economic terms only Skosana considers the impact of grave relocations a common occurrence in these mining dominated locales and the profound spiritual anguish and dehumanisation communities endure as their lands are excavated In African societies connections to the land extend beyond the material land has a sacred and ancestral value Grave relocations disrupt this connection families have with their ancestors In dispossessing not only the living but also the dead from their lands the author argues that the act wounds the collective soul of a people eroding their cultural heritage and collective identity and belonging This book offers a rich ethnographic account of the experiences struggles and resistance of the affected communities as well as a critical analysis of the legal and policy frameworks that enable their exploitation In relation to the land question in South Africa **No Last Place to Rest** presents deep insights for communities activists and government sectors acting in support of social justice and redress **Open Learning**

**as a Means of Advancing Social Justice** Tabisa Mayisela, Shanali Govender, 2024-01-23 This volume investigates the uptake of open learning in South African Technical Vocational Education and Training TVET colleges and higher education institutions Comprised of 16 studies focused on activities at a range of colleges and universities across the country these chapters aim to promote a better understanding of open learning practices across the Post School Education and Training PSET sector including issues such as recognition of prior learning access for students with disabilities work integrated learning professional development novel student funding mechanisms leadership for open educational practices institutional culture student support blended and online learning flexible learning online assessment open educational resource development models and funding and micro credentials This collection of peer reviewed chapters contributes to understanding the ways in which South African PSET institutions and educators are interpreting open learning as a means of advancing social justice It includes a historical and contemporary understanding of the economic cultural and political obstacles facing PSET drawing on Nancy Fraser's theory of social justice as participatory parity to better understand the ways in which open learning may address systemic social injustices in order to allow South African students and educators to thrive This volume emerges from research conducted by the Cases on Open Learning COOL project an initiative by the

Department of Higher Education and Training in partnership with the Centre for Innovation in Learning and Teaching CILT at the University of Cape Town UCT in South Africa      **A GUIDE TO BEING AN EXTRAORDINARY STUDENT** Jeremia Lelosa, Mahlodi Kgatle, Morongwa Maifo, Sibusiso Gama, Treasure Mokalapa, Tieho Hans, 2017-03-04 This is an inspirational and motivational book for students at University and or College as well as those who have aspirations of furthering their studies at university and or college post matric The contributors from various institutions of higher learning in South Africa share their secrets to success in this collection of experiences The contributors share their philosophies of success they share strategies they have employed which managed to assist them in graduating Students in particular junior students will benefit immensely from the comprehensive coverage of core study skills and learning strategies presented in a straightforward and relatable manner The book also helps students avoid academic exclusion and inspires them to achieve academic excellence However this book does not only cover academic success It also covers leadership and entrepreneurship which are necessary elements in today's fast and changing world Unlike any other student success guide books that are currently on the market this book is unique and offers a broad perspective from many students Again the book is written by people with a lived experience It offers an insider view This book was written by leaders of Faculty of Best Advisory FBA published and is distributed by Club Readership      **Corrupted** Jonathan D Jansen, 2023-02 Through investigatory reports and interviews Jonathan Jansen reveals the structural conditions for chronic dysfunction in a sample of South African universities He reveals the political economy at work and the intense competition for resources on campuses He also provides interventions for these fragile institutions Why do some universities seem to be in a constant state of turmoil and dysfunction Jonathan Jansen explores the root causes of chronic instability in a sample of South African universities Through scrutiny of investigatory reports and interviews with more than 100 university managers and government officials Jansen finds that at the heart of the dysfunction in universities is an intense and sometimes deadly competition for resources especially on campuses located in impoverished communities It is not the lack of institutional resources but their concentration in a university that draws a mix of corrupt actors from local politicians and taxi operators to members of council and management into a never ending run on the material such as money for infrastructure and symbolic namely graduation certificates for sale assets of these institutions Jansen argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Jansen makes an important intervention to understanding the root causes and offers interventions to produce stabilities such as the depoliticisation of university councils and appointing academics of integrity and capacity in the management and leadership of these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly
