National Bread Machine User Guide:

Economics: The User's Guide Ha-Joon Chang, 2015-10-20 From the internationally bestselling author and prizewinning economist a highly original guide to the global economy In his bestselling 23 Things They Don't Tell You About Capitalism Cambridge economist Ha Joon Chang brilliantly debunked many of the predominant myths of neoclassical economics Now in an entertaining and accessible primer he explains how the global economy actually works in real world terms Writing with irreverent wit a deep knowledge of history and a disregard for conventional economic pieties Chang offers insights that will never be found in the textbooks Unlike many economists who present only one view of their discipline Chang introduces a wide range of economic theories from classical to Keynesian revealing how each has its strengths and weaknesses and why there is no one way to explain economic behavior Instead by ignoring the received wisdom and exposing the myriad forces that shape our financial world Chang gives us the tools we need to understand our increasingly global and interconnected world often driven by economics From the future of the Euro inequality in China or the condition of the American manufacturing industry here in the United States Economics The User's Guide is a concise and expertly crafted guide to economic fundamentals that offers a clear and accurate picture of the global economy and how and why it affects our daily lives
