Patent Office,1973 **The International Robot Industry Report** John Mortimer,Brian Rooks,2013-04-17 Like many other new technologies which have since been seized and exploited by others the industrial robot is a British invention In 1957 a patent was produced by a British inventor Cyril Walter Kenward and later it became crucial to the future of robotics For across the Atlantic two robot builders Unimation and AMF both infringed this patent and ultimately a cash settlement was made to Kenward The owner of Unimation Inc was Joseph Engelberger an entrepreneur and avid reader of Isaac Asimov the writer who helped to create the image of the benevolent robot It is claimed that Engelberger's journey of fame down the road which led to him being hailed as the father of robotics can be traced to the day that he met George C Devol at a cocktail party Devol was an inventor with an impressive list of patents to his name in the electronics field One of Devol's patent applications referred to a Programmed Transfer Article Devol's patent was issued in 1961 as US Patent 2 988 237 and this formed the basis of the Unimate robot which first saw the light of day in 1960 The first Unimate was sold to Ford Motor Company which used it to tend a die casting machine It is perhaps ironic that the first robot was used by a company which refused to recognise the machine as a robot preferring instead to call it a Universal Transfer Device **Index of Patents Issued from the United States Patent and Trademark Office** ,1990 Gas Age ,1928 Includes summaries of proceedings and addresses of annual meetings of various gas associations L C set includes an index to these proceedings 1884 1902 issued as a supplement to Progressive age Feb 15 1910 **Computerworld** ,2002-04-08 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld's award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world's largest global IT media network **Hunt-Scanlon's Select Guide to Human Resource Executives** ,2005 Computerworld ,2006-02-13 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld's award winning Web site Computerworld.com twice monthly publication focused conference series and custom research form the hub of the world's largest global IT media network
