ELEMENTARY STATISTICS A BRIEF VERSION is for introductory statistics courses with a basic algebra prerequisite. The book is non-theoretical, explaining concepts intuitively and teaching problem solving through worked examples and step by step instructions. In recent editions Al Bluman has placed more emphasis on conceptual understanding and understanding results along with increased focus on Excel MINITAB and the TI 83 Plus and TI 84 Plus graphing calculators, computing technologies commonly used in such courses. The 6th edition of Bluman **Elementary Statistics A Brief Version** provides a significant leap forward in terms of online course management with McGraw Hill's homework platform Connect Statistics. Hosted by ALEKS, statistic instructors served as digital contributors to choose the problems that will be available, authoring each algorithm and providing stepped out solutions that go into great detail and are focused on areas where students commonly make mistakes. From there the ALEKS Corporation reviewed each algorithm to ensure accuracy. The result is an online homework platform that provides superior content and feedback, allowing students to effectively learn the material being taught. **Introductory Probability and Statistics, Revised Edition** Robert
