Cordesman, Bryan Gold, 2014-03-12 The United States faces major challenges in dealing with Iran the threat of terrorism and the tide of political instability in the Arabian Peninsula The presence of some of the world's largest reserves of oil and natural gas vital shipping lanes and Shia populations throughout the region have made the peninsula the focal point of US and Iranian strategic competition Moreover large youth populations high unemployment rates and political systems with highly centralized power bases have posed other

economic political and security challenges that the Gulf states must address and that the United States must take into consideration when forming strategy and policy A Guide to Intra-state Wars Jeffrey S. Dixon, Meredith Reid Sarkees, 2015-10-22 This title describes how civil war is defined and categorized and presents data and descriptions for nearly 300 civil wars waged from 1816 to the present Analyzing trends over time and regions this work is the definitive source for understanding the phenomenon of civil war **The Ancestors' Instructions Must Not Change: Political Discourse and Practice in the Song Period** Xiaonan Deng, 2021-08-30 This book offers an account of the development and transformations of the discourse of ancestors instructions in the Song period It explains how rulers selected words and deeds of ancestors in tandem with changes in current affairs and how they gave them different meanings to create not only an image of the ancestors that were suitable for emulation but also a talisman to safeguard their administration Using abundant resources exercising an economy of words and academic rigor the author digs deep to tease apart the complex and versatile relationship between the meaning and the truth of the Song discourse on ancestors instructions **Infantry**, 1989 **The Military History in Song, Liao, Jin and Xixia Dynasty** Li Shi, The book is the volume of The Military History in Song Liao Jin and Xixia Dynasty among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world s oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China s last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People s Republic of China in 1949 Chinese history has alternated between

periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927-1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China

New Military Strategies in the Gulf Jean-Loup Samaan, 2023-07-13 In the last decade rulers in Gulf regimes have aspired to greater strategic autonomy and distance from the West Coined the Gulf moment by local commentators this regional trend reflects a redistribution of power in the Arab world This is the first book to examine the military dimensions of these shifts Gulf military strategy has prioritised the improvement of local armed forces and the diversification of defence partnerships towards countries such as Russia Turkey or China However this book shows how this has led to the militarisation of Gulf societies the further erosion of multilateral initiatives including the Gulf Cooperation Council and the Gulf's perilous involvement in the war in Yemen The book also highlights enduring reliance on the West Each chapter covers a key aspect of defence policy from governance of armed forces military education and power projection capabilities to regional security cooperation and lessons from warfighting experiences Close attention is paid to Saudi Arabia the United Arab Emirates and Qatar countries that have enjoyed prominent roles in the region's security affairs during the last ten years The research is based on extensive fieldwork and interviews with major decision makers officials and diplomatic and military representatives It is also uses recently declassified official documents to gain rare insight into what Gulf countries intend for their defence policies

U.S. Army War College Guide to National Security Issues: Theory of war and strategy J. Boone Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012 This edition of the U S Army War College Guide to National Security Policy and Strategy continues to reflect the structure and approach of the core national security strategy and policy curriculum at the War College The 5th Edition is published in two volumes that correspond roughly to the Department of National Security and Strategy's core courses Theory of War and Strategy and National Security Policy and Strategy Like previous editions this one is based on its predecessor but contains both updates and new scholarship Over a third of the chapters are new or have undergone significant rewrites Many chapters some of which appeared for years in this work have been removed Nevertheless the book remains unchanged in intent and purpose Although this is not primarily a textbook it does reflect both the method and manner we use to teach strategy formulation to America's future senior leaders The book is not a comprehensive or exhaustive treatment of either strategic theory or the policymaking process Both volumes are organized to proceed from the general to the specific Thus the first volume opens with general thoughts on the nature and theory of war and strategy proceeds to look at the complex aspect of power and concludes with specific theoretical issues Similarly the second volume begins by examining the policy strategy process moves

to a look at the strategic environment and concludes with some specific issues This edition continues the effort begun in the 4th Edition to include several short case studies to illustrate the primary material in the volume [Krav Maga Training Manual](#) Tracy Thomas,2014-06-27 An internationally renowned wrestler boxer and gymnast Imi Lichtenfeld recruited young men who shared his views but his tactics were no match for armed adversaries So he focused on creating a form of fighting that combined all the martial arts with a new way of thinking Tracy Lee Thomas a master teacher who has been instructing students in the martial arts for more than thirty years explores how Krav Maga evolved and how to use it to transform your life He examines its core principles including Neutralizing threats This is the first and foremost objective Simplicity The art consists of holds strikes and blocks that are simple and efficient Defense and attack at the same time By using both techniques in a single move you can remove the threat as quickly as possible Constant motion The objective is to incapacitate the opponent with a continuous series of movements that are aggressively defensive **Taiwan Country Study Guide**

Volume 1 Strategic Information and Developments IBP USA,2012-03-03 Taiwan Country Study Guide Strategic Information and Developments Volume 1 Strategic Information and Developments [Mailing List \(Infantry School \(U.S.\)\)](#),1989 **The End Times Survival Guide** Mark Hitchcock,2018-11-06 We live in a world that seems to be on the verge of coming apart Shootings Killer viruses The threat of nuclear war All of it is just too real Why does the apocalypse craze in movies and video games appeal to so many people so strongly One answer is it shows us the primal foundations of our existence In the same way what s happening in our world today is moving Christians to return to the foundations of our spiritual existence Believers everywhere must get back to what matters most We must always remember that our battle at its most basic level is spiritual So what are the spiritual tools the essentials that Scripture tells us we must remember and use as the end draws near In The End Times Survival Guide you will discover ten spiritual tools the Bible relates directly to our preparation for the Lord s coming ten biblical survival strategies to live out in these last days so you and your family can prosper in an increasingly decaying darkening world These strategies won t guarantee your physical or financial well being but they are guaranteed to bring life and vitality to your spiritual health and welfare as you cling to the immovable rock of God s Word When life is whittled down to its essence the real issue is our spiritual condition before God Discover how you can protect yourself and your family spiritually in these dark days **Averting Crisis: American Strategy, Military**

Spending and Collective Defence in the Indo-Pacific Ashley Townshend,Brendan Thomas-Noone,Matilda Steward,2019-08-19 America no longer enjoys military primacy in the Indo Pacific and its capacity to uphold a favourable balance of power is increasingly uncertain The combined effect of ongoing wars in the Middle East budget austerity underinvestment in advanced military capabilities and the scale of America s liberal order building agenda has left the US armed forces ill prepared for great power competition in the Indo Pacific America s 2018 National Defense Strategy aims to address this crisis of strategic insolvency by tasking the Joint Force to prepare for one great power war rather than multiple

smaller conflicts and urging the military to prioritise requirements for deterrence vis vis China Chinese counter intervention systems have undermined America s ability to project power into the Indo Pacific raising the risk that China could use limited force to achieve a fait accompli victory before America can respond and challenging US security guarantees in the process For America denying this kind of aggression places a premium on advanced military assets enhanced posture arrangements new operational concepts and other costly changes While the Pentagon is trying to focus on these challenges an outdated superpower mindset in the foreign policy establishment is likely to limit Washington s ability to scale back other global commitments or make the strategic trade offs required to succeed in the Indo Pacific Over the next decade the US defence budget is unlikely to meet the needs of the National Defense Strategy owing to a combination of political fiscal and internal pressures The US defence budget has been subjected to nearly a decade of delayed and unpredictable funding Repeated failures by Congress to pass regular and sustained budgets has hindered the Pentagon s ability to effectively allocate resources and plan over the long term Growing partisanship and ideological polarisation within and between both major parties in Congress will make consensus on federal spending priorities hard to achieve Lawmakers are likely to continue reaching political compromises over America s national defence at the expense of its strategic objectives America faces growing deficits and rising levels of public debt and political action to rectify these challenges has so far been sluggish If current trends persist a shrinking portion of the federal budget will be available for defence constraining budget top lines into the future Above inflation growth in key accounts within the defence budget such as operations and maintenance will leave the Pentagon with fewer resources to grow the military and acquire new weapons systems Every year it becomes more expensive to maintain the same sized military America has an atrophying force that is not sufficiently ready equipped or postured for great power competition in the Indo Pacific a challenge it is working hard to address Twenty years of near continuous combat and budget instability has eroded the readiness of key elements in the US Air Force Navy Army and Marine Corps Military accidents have risen aging equipment is being used beyond its lifespan and training has been cut Some readiness levels across the Joint Force are improving but structural challenges remain Military platforms built in the 1980s are becoming harder and more costly to maintain while many systems designed for great power conflict were curtailed in the 2000s to make way for the force requirements of Middle Eastern wars leading to stretched capacity and overuse The military is beginning to field and experiment with next generation capabilities But the deferment or cancellation of new weapons programs over the last few decades has created a backlog of simultaneous modernisation priorities that will likely outstrip budget capacity Many US and allied operating bases in the Indo Pacific are exposed to possible Chinese missile attack and lack hardened infrastructure Forward deployed munitions and supplies are not set to wartime requirements and concerningly America s logistics capability has steeply declined New operational concepts and novel capabilities are being tested in the Indo Pacific with an eye towards denying and blunting Chinese aggression Some services like the Marine Corps

plan extensive reforms away from counterinsurgency and towards sea control and denial A strategy of collective defence is fast becoming necessary as a way of offsetting shortfalls in America s regional military power and holding the line against rising Chinese strength To advance this approach Australia should Pursue capability aggregation and collective deterrence with capable regional allies and partners including the United States and Japan Reform US Australia alliance coordination mechanisms to focus on strengthening regional deterrence objectives Rebalance Australian defence resources from the Middle East to the Indo Pacific Establish new and expand existing high end military exercises with allies and partners to develop and demonstrate new operational concepts for Indo Pacific contingencies Acquire robust land based strike and denial capabilities Improve regional posture infrastructure and networked logistics including in northern Australia Increase stockpiles and create sovereign capabilities in the storage and production of precision munitions fuel and other materiel necessary for sustained high end conflict Establish an Indo Pacific Security Workshop to drive US allied joint operational concept development Advance joint experimental research and development projects aimed at improving the cost capability curve
