**Global Street Design Guide** Global Designing Cities Initiative,National Association of City Transportation Officials,2016-10-13 The Global Street Design Guide is a timely resource that sets a global baseline for designing streets and public spaces and redefines the role of streets in a rapidly urbanizing world The guide will broaden how to measure the success of urban streets to include access safety mobility for all users environmental quality economic benefit public health and overall quality of life The first ever worldwide standards for designing city streets and prioritizing safety pedestrians transit and sustainable mobility are presented in the guide Participating experts from global cities have helped to develop the principles that organize the guide The Global Street Design Guide builds off the successful tools and tactics defined in NACTO s Urban Street Design Guide and Urban Bikeway Design Guide while addressing a variety of street typologies and design elements found in various contexts around the world

**The Urban Rail Development Handbook** Daniel Pulido,Georges

Darido,Ramon Munoz-Raskin,Joanna Moody,2018-09-20 Cities across the globe are looking to develop affordable environmentally friendly and socially responsible transportation solutions that can meet the accessibility needs of expanding metropolitan populations and support future economic and urban development When appropriately planned and properly implemented as part of a larger public transportation network urban rail systems can provide rapid mobility and vital access to city centers from surrounding districts High performing urban rail services when carefully approached as development projects can help enhance quality of life by giving citizens access to employment opportunities essential services urban amenities and neighboring communities The purpose of this Handbook is to synthesize and disseminate knowledge to inform the planning implementation and operations of urban rail projects with a view towards Emphasizing the need for early studies and project planning Making projects more sustainable economically socially and environmentally Improving socioeconomic returns and access to opportunities for users Maximizing the value of private participation where appropriate and Building capacity within project implementing and managing institutions This Handbook provides experiential advice to tackle the technical institutional and financial challenges faced by decision makers considering urban rail projects It brings together the expertise of World Bank staff and the input of numerous specialists to synthesize international good practices and recommendations that are independent of commercial financial political or other interests The material presented is intended as an honest broker guide to maximize the impact and manage the challenges of urban rail systems in cities in both developed and developing countries Rather than identify a single approach this Handbook acknowledges the complexities and context necessary when approaching an urban rail development by helping to prepare decision makers to ask the right questions consider the key issues perform the necessary studies apply adequate tools and learn from international good practice all at the right time in the project development process

#### **Climate Change and Cities** Cynthia

Rosenzweig,William D. Solecki,Patricia Romero-Lankao,Shagun Mehrotra,Shobhakar Dhakal,Somayya Ali

Ibrahim,2018-03-29 The Urban Climate Change Research Network s Second Assessment Report on Climate Change in Cities ARC3 2 is the second in a series of global science based reports to examine climate risk adaptation and mitigation efforts in cities The book explicitly seeks to explore the implications of changing climatic conditions on critical urban physical and social infrastructure sectors and intersectoral concerns The primary purpose of ARC3 2 is to inform the development and implementation of effective urban climate change policies leveraging ongoing and planned investments for populations in cities of developing emerging and developed countries This volume like its predecessor will be invaluable for a range of audiences involved with climate change and cities mayors city officials and policymakers urban planners policymakers charged with developing climate change mitigation and adaptation programs and a broad spectrum of researchers and advanced students in the environmental sciences

#### **The New Politics of Strategic Resources** David Steven,Emily

O'Brien,Bruce D. Jones,2014-11-21 Since 2008 energy and food markets those most fundamental to human existence have

remained in turmoil Resource scarcity has had a much bigger global impact in recent years than has been predicted with ongoing volatility a sign that the world is only part way through navigating a treacherous transition in the way it uses resources Scarcity and perceptions of scarcity increase political risks while geopolitical turmoil exacerbates shortages and complicates the search for solutions The New Politics of Strategic Resources examines the political dimensions of strategic resource challenges at the domestic and international levels For better or worse energy and food markets are shaped by perceptions of national interest and do not behave as traditional market goods So while markets are an essential part of any response to tighter resource supplies governments also will play a key role David Steven Emily O'Brien Bruce Jones and their colleagues discuss what those roles are and what they should be The architecture for coordinating multilateral responses to these dynamics has fallen short raising questions about the effective international management of these issues Politics impede here too as the major powers must negotiate political and security trade offs to cooperate on the design of more robust international regimes and mechanisms for resource security and the provision of global public goods This timely volume includes chapters on major powers United States India China and key suppliers Russia Saudi Arabia The contributors also address thematic topics such as the interaction between oil and state fragility the changing political dynamics of climate change and the politics of resource subsidies

Public Sector Marketing Communications Volume I Ogechi Adeola, Paul Katuse, Kojo Kakra Twum, 2022-10-03 African nations are seeking ways to build strong institutions that are development oriented and people centred Extant literature has reported the negative consequences of ineffective government communications with the public In response this book the first of a two volume edited work focuses on marketing communication themes related to branding public relations trade fairs and exhibitions and public sector communications Public sector marketing communication plays a crucial role in bridging the gap between society and the government Building a relationship with the public through appropriate communication tools and platforms is sacrosanct to restoring public sector image and trust The book supports this effort by sharing conceptual and theoretical research towards the marketisation of Africa's public sector as it strives to become an effective partner with the public it serves Together with the second volume which focuses on traditional and digital perspectives this collection fills an existing information gap that is evident in Africa's public sector

Green Energy Dustin Mulvaney, 2010-05-04 This initial volume in the SAGE Series on Green Society provides an overview of the social and environmental dimensions of our energy system and the key organizations policy tools and technologies that can help shape a green energy economy Each entry draws on scholarship from across numerous social sciences natural and physical sciences and engineering The urgency of climate change underscores the importance of getting the right technologies policies and incentives and social checks and balances in place This reference resource will prepare those with a sparking interest in the topic to participate in what will hopefully become an equitable and intergenerational conversation about the impacts of our energy consumption and how to make it cleaner and greener Via its 150 signed entries

Green Energy An A to Z Guide provides students professors and researchers an invaluable reference presented in both print and electronic formats Its clear and accessible writing style together with vivid photos numerous cross references extensive resource guide and other pedagogical tools make it a valuable tool for the classroom as well as for research purposes

Urban Transport in the Developing World Harry T. Dimitriou,Ralph Gakenheimer,2011-01-01 Policy making for urban transport and planning of economies in the developing world present major challenges for countries facing rapid urbanisation and rampant motorisation alongside growing commitments to sustainability These challenges include coping with financial deficits providing for the poor dealing meaningfully with global warming and energy shortages addressing traffic congestion and related land use issues adopting green technologies and adjusting equitably to the impacts of globalisation This book presents a contemporary analysis of these challenges and new workable responses to the urban transport problems they spawn *FCC Record* United States. Federal Communications Commission,2014 Public-Private Partnerships in Urban Bus Systems Alejandro Hoyos Guerrero,Abel Lopez Doder,2021-06-25 Many cities have sought to replicate the urban bus public private partnership PPP structures that succeeded at the beginning of the millennia such as those implemented in Brazil Colombia and Mexico These cities improved their public transportation systems in the face of rapid urbanization rising air pollution and increasing road safety incidents through these PPP interventions Examining these past international experiences and others Public Private Partnerships in Urban Bus Systems An Analytical Framework for Project Identification and Preparation first challenges the assumption that PPP structures are always the optimal approach for improving urban bus systems The authors use relevant case studies to demonstrate that structuring such PPPs in cities in the developing world requires tailor made interventions that respond to local contexts The authors identify essential elements for PPP feasibility and invite readers to consider alternative solutions for achieving the desired objectives This book presents an analytical framework that public transportation practitioners can use to support the process of identifying and preparing appropriate technical financial and legal structures to improve urban mobility if a PPP is the preferred solution It follows a detailed risk based approach to thoroughly analyze the challenges that might be experienced by cities that pursue private participation in proposed urban bus interventions Using specific examples the authors thoroughly analyze the risks and the specific potential planning stage challenges likely to be encountered and suggest strategies for practitioners to respond to the local contexts and the various alternative solutions This study builds upon international experiences predominantly in Latin America and in PPPs focused on streamlining fleet provision and operation Finally the book helps to identify and define bankable project structures that could respond well to local contexts and minimize risks **Standard & Poor's 500 Guide 2009 PB** Standard & Poor's,2009-01-18 The latest information on the bluest of the blue chip stocks from Abbott Labs and General Electric to Microsoft and Yahoo Earnings and dividends data with three year price charts Exclusive Standard Poor s Quality Rankings from A to D Detailed data on each stock that makes up the S P 500 Index *The Almanac*
