unique experience refined to their needs The Tenth Edition is the first revision based on HeatMap technology in which systematic and precise feedback from thousands of students was anonymously measured using LearnSmart the adaptive learning diagnostic Because virtually every paragraph in the previous edition is tied to several questions students answer in LearnSmart Bob was able to see where students struggled most the hot spots and in turn refine and update these areas to be more clear more concise and more impactful The 10th edition continues Bob Feldman s accessible pedagogy and hallmark research as well as his modules within chapters format that is both manageable for students and allows every professor the flexibility to assign and cover what they want The 4 additional modules in CREATE give instructors even extra flexibility to completely cater their text to their course and their students Citizenship in Motion Hazama, Itsuhiro, Umeya, Kiyoshi, 2019-04-22 Anthropological reflections on citizenship focus on themes such as politics ethnicity and state management Present day scholarship on citizenship tends to problematise unsettle and contest often taken for granted conventional connotations and associations of citizenship with imagined culturally bounded political communities of rigidly controlled borders This book the result of two years of research conducted by South African and Japanese scholars within the framework of a bilateral project on citizenship in the 21st century contributes to such ongoing efforts at rethinking citizenship globally and as informed by experiences in Africa and Japan in particular Central to the essays in this book is the concept of flexible citizenship predicated on a recognition of the histories of mobility of people and cultures and of the shaping and reshaping of places and spaces and ideas of being and belonging in the process The book elucidates the contingency of political membership relationship between everyday practices and political membership and how citizenship is the mechanism for claiming and denying rights to various political communities Self requires others to construct itself a reality that is subject to renegotiation as one continues to encounter others in a world characterised by myriad forms of interconnecting mobilities both global and local Citizenship is thus to be understood within a complex of power relationships that include ones formed by laws and economic regimes on a local scale and beyond Citizenship in Africa Japan and indeed everywhere is best explored productively as lying between the open ended possibilities and tensions interconnecting the global and local INTERNATIONAL JOURNAL OF INDIAN PSYCHOLOGY Prof. Suresh Makvana, Dr. Ankit Patel, 2019-03-25
