Ethical Empowerment Virtue Beyond The Paradigms:

Ethical Empowerment Arthur D Schwartz, 2014 Ethics has long been burdened with a certain perplexity Is self interest or altruism the primary ethical imperative When either perspective is blind to the legitimate interests of the other viewpoint self negating exceptions invariably emerge Thus philosophical arguments such as Ayn Rand s Objectivism or John Stuart Mill s utilitarianism when applied to real issues often become inadequate and dysfunctional Ethical Empowerment Virtue Beyond the Paradigms presents an ethical approach designed to encourage thinking from multiple perspectives that go beyond ideology and dogma By so doing it develops an understanding of ethics and morality that transcends rigid or inapplicable rules by returning to the principle of universal love The result is an ethical framework for unconventional ideas and research that challenges traditional beliefs that are vested in ideological financial and political interests that through various mechanisms seek to maintain the status quo The philosophical principles developed in this book make it possible to examine difficult moral conundrums and seemingly intractable social economic and political issues from new perspectives The limitations of classical ethics have never been more apparent than in today s dysfunctional world Filled with controversial ideas this is a book that is designed to engage the reader and spark healthy debate Among the many issues that are discussed and critiqued in light of the ethical theory developed are the current monetary and economic systems the meaning of social entitlements the dubious virtue of political parties and the potential abuse of scientific paradigms Also discussed are the grounds for belief or disbelief in various claims concerning the suppression of technology and invention and conspiracy theories From the perspective of an ethics that is in harmony with the basic essence of morality a long term view of a peaceful and flourishing world is not merely possible but may with time become inevitable

Reviving and Re-Writing Ethics in Social Research For Commoning the Community Chowdhury, Jahid Siraz, Vadevelu, Kumarashwaran, Hatta, Zulkarnain A., Ashraf, Mahfuz, Bhaumik, Amiya, 2024-03-05 In the continuously changing field of social sciences ethical considerations in anthropological studies pose unprecedented challenges The book Reviving and Re Writing Ethics in Social Research For Commoning the Community embarks on a transformative journey moving beyond historical analysis to address pressing contemporary questions about the norms governing anthropological study Who guards the guardians What ethical challenges does the modern era pose for anthropological sciences These are the critical questions explored in this comprehensive exploration of the ethical landscape of social research As the ethical foundations of social research shift with political intellectual and societal changes there is a pressing need to reassess the purpose of anthropological knowledge and the responsibility of researchers towards the communities they study The book raises vital concerns about the evolving nature of ethical considerations challenging traditional notions of ethical research It highlights the ethical and axiological dilemmas faced by anthropologists in the modern era emphasizing the need for a more community centric approach that actively benefits the studied communities

The Ethical Challenges of Emerging Medical Technologies Arthur L.

Caplan, Brendan Parent, 2020-09-10 This collection of essays emphasizes society's increasingly responsible engagement with ethical challenges in emerging medical technology. Expansion of technological capacity and attention to patient safety have long been integral to improving healthcare delivery but only relatively recently have concepts like respect, distributive justice, privacy and autonomy gained some power to shape the development, use and refinement of medical tools and techniques. Medical ethics goes beyond making better medicine to thinking about how to make the field of medicine better. These essays showcase several ways in which modern ethical thinking is improving safety, efficacy and efficiency of medical technology, increasing access to medical care and empowering patients to choose care that comports with their desires and beliefs. Included are complimentary ethical approaches as well as compelling counter arguments. Together the articles demonstrate how improving the quality of medical technology relies on every stakeholder, not just medical researchers and scientists, to assess each given technology's strengths and pitfalls. This collection also portends one of the next major issues in the ethics of medical technology: developing the requisite moral framework to accompany shifts toward patient-centred, personalized healthcare.

Gifts of Virtue, Alice Walker, and Womanist Ethics M. Harris, 2010-10-25 Melanie L Harris dives into the spirituality and life work of Alice Walker, literary genius and poet. Through the lens of Womanist ethics, Harris takes an inside look into the virtues and values that can be lifted from a study of Walker's non-fiction work. This work enlivens the debate in African and African American religious thought about the fluidity of spirituality and widens the conversation to encourage readers to embrace religious traditions inclusive of and beyond Christianity as the foundations for empowerment of both women and ethical values.

AI in the Classroom Ross Smith, Mayte Cubino, Emily McKeon, 2025-10-16 **DESCRIPTION** For thousands of years, education has been shaped by technology, from clay tablets and hornbooks to the printing press and now to digital learning platforms and remote education systems. As artificial intelligence becomes more embedded in our daily lives, its role in education continues to explode. AI tools offer personalized instruction, streamlined administrative tasks, and enhanced student engagement, creating a learning environment tailored to individual needs. This book offers a guide to AI understanding and implementation in the classroom and how it makes personalized learning practical, scalable, and achievable for all. African Women's Liberating Philosophies, Theologies, and Ethics Beatrice Okyere-Manu, Léocadie Lushombo, 2024-05-02 This volume explores the ethical and philosophical paradigms presented by most of the influential Matriarchs of the Circle of African Women Theologians It critically evaluates the effectiveness of their ethical and philosophical theories models and frameworks in pursuing justice and liberation for women in Africa and globally The authors address critical questions How have African women theologians reimagined existing ethical paradigms What original ethical and philosophical ideas have they generated How have their ethical frameworks influenced the theologies and interpretations they have developed What purposes do their ethical and philosophical paradigms serve How do these renderings intersect with various social categories including gender race class sexuality capitalism and colonialism What liberating frameworks do they propose The volume further explores the dialogue between distinct African contexts and universal experiences and values It explores how universal themes such as humanity human dignity rights justice motherhood and more can coexist with communal African concepts and themes It contemplates how embracing African approaches engages these themes more globally bringing together particular African contexts of women and the universal ethical philosophical and theological theories models and frameworks to advance the cause of justice and liberation for African women and women worldwide into the future

Bhakti Ethics, Emotions, and Love in Gau?iya Vai??ava Metaethics Cogen Bohanec, 2024-07-08 Bhakti Ethics Emotions and Love in Gau ya Vai ava Metaethics explores the broader implications of understanding bhakti devotional love to the divine as an ethical theory based on a realist account of emotions where emotions are sensory perceptions of the real ethical qualities of classes of actions The book spotlights one complex articulation of an Indian epistemology and ontology of ethics based on the metaphysics of Gau ya Vai ava psychology of emotions in dialogue with a variety of academic fields including the philosophy of religion and related methodologies such as virtue ethics theological voluntarism and ecofeminist and feminist care ethics The work discusses how emotions are

understood metaphysically as extra mental objectively real qualities what Cogen Bohanec refers to as affective realism This follows from a cosmogenic model where the universe emanates from the loving relationship between the divine feminine R dh and her intense loving relationship with her masculine counterpart K a Since the origin of all of reality emanates from the ultimacy of an affective relationship then the fabric of reality can be described as having objectively real affective qualities and that is the basis for grounding this ethical system
