The Education of a Graphic Designer Steven Heller, 2015-10-20. Revised and updated this compelling collection of essays, interviews, and course syllabi is the ideal tool to help teachers and students keep up in the rapidly changing field of graphic design. Top designers and educators talk theory, offer proposals, discuss a wide range of educational concerns such as theory versus practice, art versus commerce, and classicism versus postmodernism, and consider topics such as emerging markets, shifts in conventions, global impact, and social innovation. Building on the foundation of the original book, the new essays address how graphic design has changed into an information-presenting, data visualization, and storytelling field rooted in art and technology. The forward-thinking course syllabi are designed for the increasingly specialized needs of undergraduate and graduate students. Personal anecdotes from these designers about their own educations, their mentors, and their students make this an entertaining and illuminating idea book. The book features writing from Lama Ajeenah Roy, R. Behrens, Andrew Blauvelt, Max Bruinsma, Chuck Byrne, Moira Cullen, Paula J.
