headphones flattening of the voice silence of media loudness of mastering and manipulation of time as a basis for a broader exploration of contemporary culture Krukowski gives us a brilliant meditation and guide to keeping our heads amid the digital flux Think of it as plugging in without tuning out This is not a book about why vinyl sounds better it s way more interesting than that It is full of things I didn t know like why people yell into cellphones Ultimately it s about how we consume sound as a society which is increasingly on an individual basis NPR If you re a devoted music fan who s dubious about both rosy nostalgia and futuristic utopianism Damon Krukowski s *The New Analog* is for you *The New York Times Book Review*
