Gma Report On Flip Flops:

Sports and Human Rights Véronique Boillet, Sophie Weerts, Andreas R. Ziegler, 2024-06-06 Based on a series of themes and case studies this book aims to illustrate the impact of sports policies and practices on individuals and their identities and to analyze the potential solutions offered by International human rights law IHRL for these infringements It bridges the gap between IHRL and sports studies and will be useful to scholars in both fields especially those unfamiliar with each other's work Furthermore by investigating the context of sport and its governance this collection offers a series of valuable insights enabling the development of an interpretation of law in context for legal scholars in the field of human rights As the governance and regulation of sport are seen as illustrations of other forms of normativity this book also contributes to the conversation about the transnational dimension of law and legal orders In this respect it illustrates that normative autonomy in the field of sport associated with the idea of *lex sportiva* tends to be relative regarding IHRL The sporting environment is not disconnected from major contemporary social issues it constitutes a public space in which injustices can be denounced but also the theater in which prejudices are perpetuated against various parties such as athletes or workers IHRL commonly addresses attacks on individual dignity and social justice issues by guaranteeing rights to individuals and offering them protection mechanisms In this context can IHRL solve the problems encountered in the sporting environment This is the question that animates this volume This is an open access book
