God Speaks Through Hebrew Culture Jacob Reeve, 2015-01-08 Long before our earthly vocabularies were invented God was already communicating with words that contain both the power to ignite time and space and outlive the eons of man's understanding While God does often speak to us personally within the confines of our vocabularies He also speaks universally in ways that transcend the fleeting knowledge of the generations of man It might be surprising to some that English isn't God's primary language In this book you will discover a God who speaks in ways so fundamental so simple and so universal that we in the busy legalities of our religious naivety can often miss what He is saying Many Christians don't realize that Jesus was a Jewish Rabbi and the Bible including the New Testament is a Jewish work The information in this book will unlock huge portions of the mysteries of the scriptures With seven sections aiming to expose its readers to the Hebrew context of Christ and the entire New Testament this book is an essential foundation for sound interpretation CHAPTER TITLES INCLUDE 1 God Speaks through Rabbinic Culture 2 God Parables in Hebrew Patriarchs 3 God Speaks through the Hebrew Concept of Covenant 4 God Speaks through the Hebrew Language 5 God speaks through 33 Hebrew Words 6 God Speaks through His Feasts 7 God Speaks through His House **God's Image and Global Cultures** Kenneth Nehrbass, 2016-08-26

Globalization has raised numerous questions about theology and culture for Christians How should we respond to outsourcing and immigration How does anti-Western sentiment affect the proclamation of the gospel What is the role of the church in society This book argues that Christians will be most fulfilled and most effective if they embrace their cultural activity rather than feel ambivalent about it The central question of this book is how does bearing God's image relate to cultural activity Nehrbass explains that spheres of culture such as political technological and social structures are systems that God has instilled in humans as his image bearers so that they can glorify and enjoy him forever Therefore a theology of culture involves recognizing that the kingdom of God encompasses heaven and Earth rather than pitting heaven against Earth The text surveys anthropological explanations for humanity's dependence on culture and shows that each explanation provides only partial explanatory scope The most satisfying explanation is that a major functional aspect of bearing God's image is engaging in culture since the Trinity has been eternally engaged in cultural functions like ruling communicating and creating Each chapter contains a summary and questions about what it means to be a world changer in the twenty-first century "Oneness" a Touch of Truth Dr. Wayne E. Whaley, 2023-06-14 This book originated from what I considered the indistinguishability of what is known as truth The fact that we communicate with one another and contemplating the ways as well as the various languages spoken lead to this manuscript There are over 7 000 languages spoken today and one may wonder where do we go from here Are there languages being created today Do languages die And more specifically will we all speak the same language one day These are questions just a few questions I am sure we all have asked ourselves at some time or another With the increasing demand to have quick access and to be able to use various forms of communication it is

interesting to realize that humanity has always had one language in many variations The commonality between languages of one race and another is so similar that if one listen carefully they hear the likeness between languages An example of this is American English and the German language The ultimate language that each of us will finally speak and comprehend to communicate may be considered pure Language

**Creation and Evolution** Jacques Van Heerden,2014-01-31 The first few chapters of Genesis which give the biblical account of Creation may well be the most underrated text in existence It has been misunderstood by many either read very naively as a simplistic description or otherwise regarded as a bit of of the patchwork employed by a final redactor of the text The vast majority of scientists regard it as infra dig Ancient Hebrew thought patterns were quite different from our own They were less interested in the process than in the origin the Creator in the Creation stories and the result Symbolism exemplified in numbers and colors were tremendously important Central to all their thinking was the worship of the LORD God Almighty and the tabernacle which was later replaced by the temple All this has a bearing on our interpretation of Genesis The best translation of Gen 1 2 is as follows Gen 1 2 The earth was formless and empty and darkness covered the deep water The Spirit of God was hovering over the water Gods Word The two terms formless and empty are the first key to understand what follows namely a giving shape to that which had no form and then filling the forms The whole description speaks of a dynamic system not a rigid structure cast in concrete What transpires in the end is that there is no conflict between Creation and Evolution except that the naturalists natural selection was actually divine selection not a random process but a directed development to reach a very specific goal The Christian believer should take comfort in the fact that our Bible is in perfect harmony with the best up to date science The scientist should take note that the biblical account had to be inspired by God to relate something of real meaning to us through an author who had no proper knowledge of the universe and no understanding of evolution
