Create a Website From Scratch In 2024? - Complete Guide Dinesh Kumar VM, Nowadays everything moved to online and the internet usage is increasing day by day. Google is the most used search engine by the users around the world. As of now, more than 92% of the online users are using Google to find information about the products, services, and to learn more about the new things. Hence, a website is important for all the businesses. From this insight, it is clear that if you would like to get more reach for your business online, then you should have a proper website which is optimized perfectly to rank well on Google and in other search engines. This book covers everything about creating a new website starting from the scratch. As a business owner or a blogger, this book will give you complete insights about website creation and optimizing the site to rank well on Google Search. This book was written by Dinesh Kumar VM, SEO Digital PR Manager at ClickDo Ltd. Fernando Raymond, CEO of ClickDo Ltd, is the publisher of this book with Kasun Sameera, who is head of Design Web Development at ClickDo Ltd. Whether you are a business person or a college student or a newbie, this book will guide you to create a website by yourself if you are planning to learn everything about website creation and basic optimization. Then this book would be the best choice for you. [The Complete Idiot's Guide to Search Engine Optimization](#) Michael Miller, 2009. Most businesses depend on their rankings on Google, Yahoo, and other search engines to drive traffic to their websites. The higher a business's ranking, the more traffic its site gets. Where does a webmaster or online market manager go for advice and instruction on optimizing a business's website for higher search engine rankings? The few search engine optimization (SEO) books currently on the market are dated and do not cover the latest local, mobile, and social marketing techniques. The Complete Idiot's Guide to Search Engine Optimization is a comprehensive, up-to-date, easy-to-use guide for SEO. It starts with a general overview of how search engines and SEO work and then flows into specific techniques for basic website optimization. It addresses the analysis and ongoing maintenance of a site's optimization and finishes with a look at how search engine marketing fits within a company's overall online marketing plan. In The Complete Idiot's Guide to Search Engine Optimization, readers learn how search engines and SEO work, how to optimize your site's keywords, tags, and design, how to optimize the links to your site for local and mobile searches, and social media.
