

A PATIENT'S GUIDE TO THE HIPAA PRIVACY RULE:

When Health Care Providers May Communicate About You with Your Family, Friends, or Others Involved In Your Care

U.S. Department of Health and Human Services • Office for Civil Rights

The U.S. Department of Health and Human Services (HHS) enforces the Federal privacy regulations commonly known as the **HIPAA Privacy Rule (HIPAA)**. HIPAA requires most doctors, nurses, pharmacies, hospitals, nursing homes, and other health care providers to protect the privacy of your health information. Here is a list of common questions about HIPAA and when health care providers may discuss or share your health information with your family members, friends, or others involved in your care or payment for care.

COMMON QUESTIONS ABOUT HIPAA

1. If I do not object, can my health care provider share or discuss my health information with my family, friends, or others involved in my care or payment for my care?

Yes. As long as you do not object, your health care provider is allowed to share or discuss your health information with your family, friends, or others involved in your care or payment for your care. Your provider may ask your permission, may tell you he or she plans to discuss the information and give you an opportunity to object, or may decide, using his or her professional judgment, that you do not object. In any of these cases, your health care provider may discuss only the information that the person involved needs to know about your care or payment for your care.

Here are some examples:

- An emergency room doctor may discuss your treatment in front of your friend when you ask that your friend come into the treatment room.
- Your hospital may discuss your bill with your daughter who is with you at the hospital and has questions about the charges.
- Your doctor may talk to your sister who is driving you home from the hospital about your keeping your foot raised during the ride home.
