Historical Parallels, vol 3 (of 3) Arthur Thomas Malkin,2014-11-26 Example in this ebook CHAPTER XIII The cautious policy of Pericles and the plague combined to render the two first years of the war barren of incidents The third campaign opened more energetically with the siege of Plat a the old and faithful ally of Athens This is the earliest siege of which we have any full and particular account and some surprise may be felt at the rudeness and inefficacy of the means employed in prosecuting it by the most military nation of Greece For this however all previous history prepares us To the early Greeks fortifications of any strength appear to have presented insuperable obstacles Not a city of any note can be mentioned which was taken by fair fighting Troy was impregnable by force Eira was taken in consequence of its being accidentally left unguarded Ithome held out for ten years and at last obtained honourable terms of surrender And when Cyrus marched against Babylon the inhabitants trusting in their walls and their magazines made no account at all of being besieged but Cyrus became greatly puzzled what to do having spent much time there and made no progress at all The stratagem by which he took it at last is well known he laid dry the bed of the

Euphrates and introduced a body of troops through the deserted channel yet danger even from this quarter had been foreseen and guarded against if proper caution had been used Each side of the river was lined with walls and gates were placed at the end of the streets which led down to the water side so that as Herodotus himself remarks if the Persians had been on their guard the attempt might have been defeated by merely closing the gates and the assailants might have been cut off entirely by missile weapons But to return to Plata the Spartans were notoriously unskilled even among the Greeks in this branch of warfare Military engines they had none a want arising probably from their national poverty for the ram was known and was employed some say invented by Pericles at the siege of Samos some years before the Peloponnesian war broke out It is remarkable that from this time downwards to the invention of gunpowder no material discovery was made in this branch of the military art except the introduction of moving towers Lines of circumvallation as they were the earliest continued to be the surest means of overcoming the pertinacious resistance of stone and mortar Such was the case even at Rome after the vast influx of wealth from conquered provinces had facilitated the construction of the largest and most expensive machines and the vast scale upon which those temporary enclosures were completed exhibits most strikingly the laboriousness of the Roman legionaries This however is foreign to our present subject If the reader has any curiosity respecting these works he will find some remarkable ones described in Caesar's Commentaries To be continued in this ebook

Thomas Malkin, 2018-05-07 Excerpt from Historical Parallels Vol 1 of 3 Valuable therefore as is the assistance of those authors who have devoted their talents and learning to epitomizing and rendering accessible the story of past ages it is far from desirable that we should content ourselves with a blind trust in them without checking their assertions and filling up their sketches by a more detailed knowledge than it is possible for them to communicate To apply these observations to the present work the History of Greece contained in the Library of Useful Knowledge necessarily gives a very short account of many things which deserve to be known in detail both on account of their historical notoriety and for the intrinsic value which they possess as striking examples of human power passion and suffering Much of the excessive commendation which has been bestowed upon ancient virtue and patriotism ought probably to be attributed to the eager interest naturally excited by the rival of learning and the peculiar circumstances under which it took place The discovery of the works of the most celebrated writers of antiquity whose names at least had not been forgotten must at any time have produced much curiosity and excitement and peculiarly so when modern literature did not yet possess many names to divide the palm of genius with them Besides this the political circumstances of the Italian states in which the new discoveries were at first most successfully and generally prosecuted would give an additional interest and a peculiar bias to the study of ancient literature About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally
