History A Novel:

The English Novel in History, 1950 to the Present Professor Steven Connor, Steven Connor, 2008-03-07 Steven Connor provides in depth analyses of the novel and its relationship with its own form with contemporary culture and with history He incorporates an extensive and varied range of writers in his discussions such as George Orwell William Golding Angela Carter Doris Lessing Timothy Mo Hanif Kureishi Marina Warner Maggie Gee Written by a foremost scholar of contemporary culture and theory The English Novel in History 1950 to the Present offers not only a survey but also a historical and cultural context to British literature produced in the second half of this century *History and the Contemporary Novel* David Cowart, 1989 Cowart presents a study of international historical fiction since World War II with reflections on the affinities between historical and fictional narrative analysis of the basic modes of historical fiction and readings of a number of historical novels including John Barth's *The Sot Weed Factor* Marguerite Yourcenar's *Memoirs of Hadrian* Russell Hoban's *Riddley Walker* Margaret Atwood's *The Handmaid's Tale* Giuseppe Tomasi Di Lampedusa's *The Leopard* D M Thomas's *The White Hotel* William Faulkner's *Go Down Moses* and Umberto Eco's *The Name of the Rose* He proposes recognizing four modes of the historical novel the past as a distant mirror of the present fictions whose authors seek to pinpoint the precise historical moment when the modern age or some prominent feature of it came into existence fictions whose authors aspire purely or largely to historical verisimilitude and fictions whose authors reverse history to contemplate utopia and dystopia in the future Thus historical fiction can be organized under the rubrics The Distant Mirror The Turning Point The Way It Was and The Way It Will Be This fourfold schema and his focus on postwar novels set Cowart's work apart from previous studies which have not devoted adequate space to the contemporary historical novel Cowart argues that postwar historical fiction merits more extensive treatment because it is the product of an age unique in the annals of history an age in which history itself may end **History of Fiction in China** Zhi Dao, The book provides highlights on the key concepts and trends of evolution in History of Fiction in China as one of the series of books of China Classified Histories The Oxford History of the Novel in English Patrick Parrinder, 2011 This series presents a comprehensive global and up to date history of English language prose fiction and written by a international team of scholars dust jacket **The Oxford History of the Novel in English** J. Gerald Kennedy, Leland S. Person, 2014-06-26 The Oxford History of the Novel in English is a 12 volume series presenting a comprehensive global and up to date history of English language prose fiction and written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements traditions and tendencies In thirty four essays this volume reconstructs the emergence and early cultivation of the novel in the United States Contributors discuss precursors to the U S novel that appeared as colonial histories autobiographies diaries and narratives of Indian captivity religious conversion and

slavery while paying attention to the entangled literary relations that gave way to a distinctly American cultural identity The Puritan past more than two centuries of Indian wars the American Revolution and the exploration of the West all inspired fictions of American struggle and self discovery A fragmented national publishing landscape comprised of small local presses often disseminating odd experimental forms eventually gave rise to major houses in Boston New York and Philadelphia and a consequently robust culture of letters Dime novels literary magazines innovative print technology and even favorable postal rates contributed to the burgeoning domestic book trade in place by the time of the Missouri Compromise Contributors weigh novelists of this period alongside their most enduring fictional works to reveal how even the most American of novels sometimes confronted the inhuman practices upon which the promise of the new republic had been made to depend Similarly the volume also looks at efforts made to extend American interests into the wider world beyond the nation's borders and it thoroughly documents the emergence of novels projecting those imperial aspirations

History, Fiction, and Germany

Brent Orlyn Peterson, 2005 A study of the content development and transmission of German identity during the nineteenth century as Germany's national narrative took shape in historical fiction and in both popular and academic history The German speaking inhabitants of central Europe did not automatically think of themselves as Germans not before 1871 and not always after unification In fact they spoke mutually incomprehensible dialects owed allegiance to different leaders worshiped in different churches and would not have recognized each other's customs If asked about their identity these prospective Germans might have answered Austrian Bavarian or Prussian and they could as easily have used more local labels or resorted to occupational markers For this disparate population to think of itself as German that word had to acquire content people had to learn a whole set of stories they could tell themselves and to others in answer to the question of identity History Fiction and Germany chronicles how German nationalism developed simultaneously with the historical novel and the field of history both at universities and in middlebrow reading material The book examines Germany's emerging national narrative as nineteenth century writers adapted it to their own visions and to changing circumstances These writers found and popularized the nation's heroes and heroines demonized its villains and enemies and projected the nation's hopes and dreams for the future Author Brent O Peterson argues that it was the production and consumption of national history the writing and reading of the nation that filled Germany with Germans Although the task of national narration was never complete and never produced a single universally accepted version of German national identity tales from Germans gradually shared history did more to create Germany than any statesman general or philosopher History Fiction and Germany provides a valuable resource for scholars and students of German studies as well as anyone interested in history and the articulation of national identity

The Oxford History of the Novel in English Priscilla Wald, Michael A. Elliott, 2014-01-21 Witnessing the end of a war that nearly terminated the nation the abolition of racial slavery and rise of legal segregation the rise of Modernism and Hollywood the closing of the frontier and two World Wars the literary historical period represented in this

volume constitutes the crucible of American literary history Here 35 essays by top researchers in the field detail how considerations of race and citizenship immigration and assimilation gender and sexuality nationalism and empire all reverberate throughout novels written in the United States between 1870 and 1940 Contributors discuss the professionalization of literary production after the Civil War alongside legal and political debates over segregation and citizenship while chapters on journalism geography religion and immigration offer discussions on everything from the lasting role of literary realism in American fiction to the Spanish American War's effect on developing theories of aesthetics and popular culture The volume offers thorough coverage of the emergence of serial fiction children's fiction crime and detective fiction science fiction and even cinema and comics as new media and artistic revolutions like the Harlem Renaissance helped usher in the new international aesthetic movement of Modernism The final chapters in the volume explore the relationship of the novel to the emergence of American literature as a category in the academy in public criticism and journalism and in mass culture

The Fiction of History Alexander Lyon Macfie, 2014-08-13 The Fiction of History sets out a number of themes in the relationship between history and fiction emphasising the tensions and dilemmas created in this relationship and examining how various writers have dealt with these In the first part two chapters discuss the philosophy behind the connection between fiction and history whether history is fiction and the distinction between the past and history Part two goes on to discuss the relationship between history and literature using case studies such as Virginia Woolf and Charles Dickens Part three looks at television and film as well as other media through case studies such as the film *Welcome to Sarajevo* and Soviet and Australian films Part four considers a particular theme that has prominence in both history and literature postcolonial studies focusing on the issues of fictions of nationhood and civilization and the historical novel in postcolonial contexts Finally the fifth section comprises two interviews with novelists Penelope Lively and Adam Thorpe and discusses the ways in which their works explore the nature of history itself

The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a

movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States The Oxford History of the Novel in English Patrick Parrinder, 2011 This series presents a comprehensive global and up to date history of English language prose fiction and written by a international team of scholars dust jacket
