Lookbook - Notebook Pages

On the following pages are lookbook templates for the human body systems. Cut the pages out on the solid line and fold along the dotted line.

The images can go either on the outside - with the students writing the body system on the inside to check to make sure they know the terminology. Or, alternatively, they can be folded the opposite way with the images on the inside if that suits your purposes better.

These are then glued into a flip folder (the lookbook) or onto plain paper for the students to add to their science portfolios.
