**International Aerospace Abstracts** ,1997      **Dollar Invoicing, Global Value Chains, and the Business Cycle Dynamics of International Trade** Mr. David Cook,Nikhil Patel,2022-02-11 Recent literature has highlighted that international trade is mostly priced in a few key vehicle currencies and is increasingly dominated by intermediate goods and global value chains GVCs Taking these features into account this paper reexamines the relationship between monetary policy exchange rates and international trade flows Using a dynamic stochastic general equilibrium DSGE framework it finds key differences between the response of final goods and GVC trade to both domestic and foreign shocks depending on the origin and ultimate destination of value added and the intermediate shipments involved For example the model shows that in response to a dollar appreciation triggered by a US interest rate increase direct bilateral trade between non US countries contracts more than global value chain oriented trade which feeds US final demand and exports to the US decline much more when measured in gross as opposed to value added terms We use granular data on GVCs at the sector level to document empirical evidence in favor of these key predictions of the model      *Flight International* ,1999      **Trade Linkages and International Business Cycle Comovement: Evidence from Korean Industry Data** Dongyeol Lee,2019-05-24 Through the 2000s Korea s export and import linkages to advanced and emerging markets increased significantly At the same time the correlation of output growth between Korea and these economies rose This paper investigates the nature of the link between trade linkages and the comovement of international business cycles BC using Korean industry level domestic and international input output data The results suggest that at the industry level higher export linkages lead to a larger positive GDP growth comovement while higher import linkages lead to higher negative employment growth comovement Furthermore the decomposition of aggregate BC comovement shows that the increase in trade with China has contributed the most to aggregate BC comovement while the impact of trade linkages on BC comovement is propagated domestically via vertical linkages These findings suggest that the Korean economy can be significantly affected by a few countries that are highly linked through trade to Korea and or a few industries that are highly interconnected to other industries      *Vertical Horizons* Douglas M. Grant,2017-10-07 Looking back over thirty years of flying for Okanagan I see the experience has given me an interesting life I have never really considered flying as work It is more a way of life a way of life that nourishes a free spirit something that not many jobs can give you I just cannot imagine anything I would rather have done or any company I would have rather worked for Jim Reid pilot In 1945 following years as an instructor Carl Agar was honourably discharged from the British and Commonwealth Air Training Plan and moved to Penticton where he began looking for flying opportunities A first attempt to start a flying club never took off but Agar and his partners Barney Bent and Alf Stringer were determined to get off the ground They began looking at commercial ventures and in 1947 Okanagan Air Services OAS was formed to provide instruction and contract work After a rough start while demonstrating fruit spraying Agar crashed a

helicopter into power lines the company got a break in May 1948 when the Fraser floods swamped the valley and OAS received a mosquito spraying contract From there the company flourished going on to fly the first unaccompanied commercial helicopter ferry flight from Canada to the UK monitor polar bears in the High Arctic provide offshore oil rig support during monsoons and at the company s high point operate in over 33 countries with 600 employees and 126 helicopters Back home Agar opened the Mountain Flying School in Penticton which is still in operation today and has trained thousands of civilian and military pilots from all over the world Vertical Horizons is also the story of the employees who were pivotal to the success of the company Individuals experiences range from tragic to humorous and include a UFO sighting in the Arctic witnessing the Jonestown massacre and a rescue of Vietnamese refugees off the coast of Thailand Featuring first hand accounts extensive research and a multitude of photographs Vertical Horizons is the first ever history of the company that pioneered flying high mountain terrain making it a must read for any aviation buff
