Knife of Dreams Robert Jordan, 2005-10-11 Fantasy roman **Knife of Dreams Bk. 11 The Wheel of Time Series**
Robert Jordan, 2005 *Subcreation: Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams*
Stefanie Schult, 2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett s Discworld retains a feeling of Britishness that is not to be found in Williams s Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the success of an author s Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media **The Alloy of Law** Brandon Sanderson, 2012-10-30 From 1 New York Times bestselling author Brandon Sanderson the Mistborn series is a heist story of political intrigue and magical martial arts action Three hundred years after the events of the Mistborn trilogy Scadrial is now on the verge of modernity with railroads to supplement the canals electric lighting in the streets and the homes of the wealthy and the first steel framed skyscrapers racing for the clouds Kelsier Vin Elend Sazed Spook and the rest are now part of history or religion Yet even as science and technology are reaching new heights the old magics of Allomancy and Feruchemy continue to play a role in this reborn world Out in the frontier lands known as the Roughts they are crucial tools for the brave men and women attempting to establish order and justice One such is Waxillium Ladrian a rare Twinborn who can Push on metals with his Allomancy and use Feruchemy to become lighter or heavier at will After twenty years in the Roughts Wax has been forced by family tragedy to return to the metropolis of Elendel Now he must reluctantly put away his guns and assume the duties and dignity incumbent upon the head of a noble house Or so he thinks until he learns the hard way that the mansions and elegant tree lined streets of the city can be even more dangerous than the dusty plains of the Roughts Other Tor books by Brandon Sanderson The Cosmere The Stormlight Archive The Way of Kings Words of Radiance Edgedancer Novella Oathbringer The Mistborn trilogy Mistborn The

How to Read a Novel John Sutherland, 2013-12-10 Do we still know how to read a novel? John Sutherland, Chairman of the 2005 Booker Prize Committee, asks. His disheartened answer is an unequivocal No. But Sutherland has not given up hope. With acerbic wit and intellect, he traces the history of what it used to mean to be well read and tells readers what it still means today. Using this delightful book as a means to an end, he reminds readers how the delicate charms of fiction can be at once wonderful and inspired and infuriating. On one level, this is a book about novels: how they work, what they're about, what makes them good or bad, and how to talk about them. At a deeper level, this is a book in which one of the most intimate of the t t t e s is described: one in which a reader meets a novel. Will a great love affair begin? Will the rendezvous end in disappointment? Who can say? In order for the relationship to take its appropriate course, all the details must be clearly acknowledged and understood for their complexities: plot, point of view, character, style, pace, first and last sentences, and even beauty. Still, Sutherland knows a true understanding of fiction is more than a flirtation with text and style; it is a business. Taking his readers on a trip to the bookshop, he helps them judge a book by its cover, based on design and color, wondering aloud what genre might be best, even going so far as to analyze one of the latest American bestsellers to further help the buying reader choose the novel that is right for him or her. In a book that is as wry and humorous as it is learned and opinionated, John Sutherland tells you everything you always wanted to know about how to read fiction better than you do now but were afraid to ask.

Where's the Harm? Lene Hansen, 2024-11-30 The growing emphasis on harm reflects a pivotal shift in criminology. This accessible book explores over a dozen compelling real-life scenarios, including rape, murder, corporate and environmental crime, shedding light on the contributors to and the many outcomes of harm in societal and cultural contexts. The book encourages critical thinking and champions a more proactive and preventative approach to regulation, punishment, and crime. It is the perfect resource for students and teachers of law and criminology. It is particularly useful for first-year students who are still exploring their areas of interest.
