

1. GENERAL

The swing system is designed to freely rotate or stop the upper frame on the lower frame; it comprises, in addition to the control valve, the hydraulic motor used for converting hydraulic energy into rotational force, reduction unit, bearings, swivel joints, etc.

The upper frame and the lower frame are connected by

means of the single-row ball bearings with internal gear. When the pressurized oil is supplied to the swing unit fitted on the upper frame, the pinion (output shaft) of the reduction unit rotates, and being engaged with the swing bearing gear, rotates the upper frame.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
