Warfare State James T. Sparrow, 2011-05-01

Although common wisdom and much scholarship assume that big government gained its foothold in the United States under the auspices of the New Deal during the Great Depression in fact it was the Second World War that accomplished this feat Indeed as the federal government mobilized for war it grew tenfold quickly dwarfing the New Deal's welfare programs Warfare State shows how the federal government vastly expanded its influence over American society during World War II Equally important it looks at how and why Americans adapted to this expansion of authority Through mass participation in military service war work rationing price control income taxation and the war bond program ordinary Americans learned to live with the warfare state They accepted these new obligations because the government encouraged all citizens to think of themselves as personally connected to the battle front linking their every action to the fate of the combat soldier As they worked for the American Soldier Americans habituated themselves to the authority of the government Citizens made their own counter claims on the state particularly in the case of industrial workers women African Americans and most of all the soldiers Their demands for fuller citizenship offer important insights into the relationship between citizen morale the uses of patriotism and the legitimacy of the state in wartime World War II forged a new bond between citizens nation and government Warfare State tells the story of this dramatic transformation in American life

For example in the event that you find a stone and drop it back down indifferently you might be picking a reptile's shade or a plant's cool clammy shady spot or reducing a neighborhood's soil microorganisms that have lived there for a long time making the air breathable for us. As individuals we work on a far larger scale than microorganisms or bugs nonetheless careful normal caretaking falls to us since our decisions influence entire mystery universes. Remember we're guests in nature and no one loves a visitor who leaves garbage lying around. A good camper looks like the breeze in the trees: dazzling then it's gone and just memories are left. Jess Phoenix, earth specialist. It's crucial to leave nothing behind when camping out something the Recreational area Organization has been saying for a long time. The best guest is one who excels at adding nothing remarkable to the environment and at removing nothing, says Phoenix. That could mean stowing your used restroom tissue and eliminating it from the outdoors when you leave. Or on the other hand not taking anything back home with you that you found on the land, whether or not it's just an uncommon stone. Remember we're visitors in nature and no one likes a guest who leaves piles of garbage behind, she says. A respectable camper takes after the breeze in the trees: excellent yet at whatever point it's gone just memories are left.
