Laurent Clerc The Story Of His Early Years:

Laurent Clerc Cathryn Carroll,1991 A fictionalized autobiography in which the voice of Laurent Clerc describes his boyhood in France as a deaf student and his development of his own progressive methods to teach the deaf **From Pity to Pride** Hannah Joyner,2004 The antebellum South's economic dependence on slavery engendered a rigid social order in which a small number of privileged white men dominated African Americans poor whites women and many people with disabilities *From Pity to Pride* examines the experiences of a group of wealthy young men raised in the old South who also would have ruled over this closely regimented world had they not been deaf Instead the promise of status was gone replaced by pity as described by one deaf scion I sometimes fancy some people to treat me as they would a child to whom they were kind In this unique and fascinating history Hannah Joyner depicts in striking detail the circumstances of these so called victims of a terrible misfortune Joyner makes clear that Deaf people in the North also endured prejudice She also explains how the cultural rhetoric of paternalism and dependency in the South codified a stringent system of oppression and hierarchy that left little room for self determination for Deaf southerners *From Pity to Pride* reveals how some of these elite Deaf people rejected their family's and society's belief that being deaf was a permanent liability Rather they viewed themselves as competent and complete As they came to adulthood they joined together with other Deaf Americans both southern and northern to form communities of understanding self worth and independence *Language, Culture, and Hegemony in Modern France* Freeman G. Henry,2008 In this panoramic study Freeman Henry chronicles the rise to prominence of French language and culture He meticulously analyzes the protracted government sponsored efforts to foster and maintain that status and ultimately the latter day challenges to France's national linguistic identity posed by Anglocentric globalization and a multicentric European Union The internal history of the language is closely intertwined with its external history phonology morphology lexicography and orthography come alive against a backdrop of political cultural and institutional manifestations A felicitous blend of documentary evidence and critical analysis serves to elucidate crucial stages events and concepts 16th century exuberance 17th century foundations 18th century expansionism Revolutionary ideology Restoration restructuring and commercialization the advent of linguistic science the coming of the media age encroaching technocracy and clamors for linguistic parity Individual chapter focus on the plight of minority linguistic communities such as the blind and the deaf language monitoring policies and legislation such as the Loi Toubon as well as the feminization project legitimizing Madame la ministre Publisher description **The Deaf Community in America** Melvia M. Nomeland,Ronald E. Nomeland,2011-12-23 The deaf community in the West has endured radical changes in the past centuries This work of history tracks the changes both in the education of and the social world of deaf people through the years Topics include attitudes toward the deaf in Europe and America and the evolution of communication and language Of particular interest is the way in which deafness has been increasingly humanized rather than medicalized or pathologized

as it was in the past Successful contributions to the deaf and non deaf world by deaf individuals are also highlighted

Our Lives - Our Stories Roland Pfau,Asli Göksel,Jana Hosemann,2021-01-18 Sign languages are non written languages Given that the use of digital media and video recordings in documenting sign languages started only some 30 years ago the life stories of Deaf elderly signers born in the 1930s 1940s have except for a few scattered fragments in film not been documented and are therefore under serious threat of being lost The chapters compiled in this volume document important aspects of past and present experiences of elderly Deaf signers across Europe as well as in Israel and the United States Issues addressed include i historical events and how they were experienced by Deaf people ii issues of identity and independence iii aspects of language change iv experiences of suppression and discrimination The stories shared by elderly signers reveal intriguing yet hidden aspects of Deaf life On the negative side these include experiences of the Deaf in Nazi Germany and occupied countries and harsh practices in educational settings to name a few

On the positive side there are stories of resilience and vivid memories of school years and social and professional life In this way the volume contributes in a significant way to the preservation of the cultural and linguistic heritage of Deaf communities and sheds light on lesser known aspects against an otherwise familiar background This publication has been made possible within the SIGN HUB project which has received funding from the European Union s Horizon 2020 research and innovation programme
