Medicine and the Law Under the Roman Empire Claire Bubb,Michael Peachin,2023 What happens when we juxtapose medicine and law in the ancient Roman world This book shows how both fields were crafted to fulfil peculiarly ancient needs and desires becoming forms of public entertainment and allowing practitioners to display their education in rhetoric

Competition is Killing Us Michelle Meagher,2020-09-10 We live in the age of big companies where rising levels of power are concentrated in the hands of a few Yet no government or organisation has the power to regulate these titans and hold them to account We need big companies to share their power and we the people of the world need to reclaim it In *Competition is Killing Us* top business and competition lawyer Michelle Meagher establishes a new framework to control capitalism from the inside in order to make it work for the many and not just the few Meagher has spent years campaigning against these multi billion and trillion dollar mammoths that dominate the market and prioritise shareholder profits over all else leading to extreme wealth inequality inhumane conditions for workers and relentless pressure on the environment In this revolutionary book she introduces her wholly achievable alternative a fair and comprehensive competition law that limits unfair mergers enforces accountability and redistributes power through stakeholder governance

The Future of High-Cost Credit Jodi Gardner,2022-07-14 This book proposes a new way of thinking about the controversial and complex challenges associated with the regulation of high cost credit specifically payday lending These products have received significant attention in both the media and political arena The inadequacy of regulatory interventions has created ongoing problems with the provision of high cost credit particularly for consumers with lesser bargaining power and who are already financially vulnerable The book tackles two specific gaps in the existing literature The first involves inadequate analysis of the relevant philosophical concepts around high cost credit which can

result in an over simplification of what are particularly complex issues The second is a lack of engagement in both the market and lived experience of borrowers resulting in limited understanding of those who use these financial products The Future of High Cost Credit explores the theoretical grounding policy initiatives and interdisciplinary perspectives associated with high cost credit making a novel and insightful contribution to the existing literature The problems with debt extend far beyond the legal sphere and the book will therefore be of interest to many other academic disciplines as well as for those working in public policy and the third sector
