7 pages | 1736 words

The University of Phoenix is Americas largest accredited private University with over 180 campuses in 35 states nationwide. The University of Phoenix offers a host of undergraduate programs for the working adult. The program that interests me the most is the Bachelor of Science in Information Technology (BSIT). "The BSIT program is focused on the acquisition of theory and technical competencies associated with the information technology profession". The program is setup as such where full time professionals have the opportunity to attend school while tending to the needs of a growing family.

By assigning both group and individual assignments, the programs focus is to provide a unique learning style that is both academic and practical to real life work experiences. This is a distinctive approach to learning and is a different style from that of a traditional University. I was drawn to the University because of this distinctive approach and it is one of the aspects that intrigued me about the program. I started at the University of Phoenix in January 2004, and have not since regretted a minute of that decision. Becoming a student in the BSIT program has already proven to be an invaluable experience. I have since applied acquired knowledge from the programs course work to tasks encountered in the job field. My current position as a Maintenance Technician in the Semiconductor Industry requires me to troubleshoot hardware and software failures.

This assignment is broken up into three parts, first I will reflect upon where I was in my personal and professional life before I started the BSIT program. Next I will evaluate the growth I have experienced during my University of Phoenix program of study. Lastly I will analyze the impact of completing the University of Phoenix Bachelor's program and my current and future professional goals I have established for myself.

### Past

In the past, I was of the opinion that having an education was for some people but not for all. Those who made the choice to obtain higher education did so as a personal decision for themselves, more power to those individuals. I knew that the chances to make more money would likely be in my favor and the probability to advance to a higher position is almost guaranteed in some cases. These two benefits and more could be obtained by earning a college degree. I have read studies reporting that people who had a college degree are more likely to be happier with their job responsibilities and more committed to their roles as an employee of the company. "The average family income for people who had only a high school diploma was \$52k a year verse the family income of people who had a college (bachelor's) degree was \$96k".

The prospect for me to aspire a college education was never a misconception, nor was it a question of the lack of finances available. In fact, I supported my wife as she earned her Bachelors Degree in Case Management at Arizona State University. She began her studies right out of high school while...

Coleman,2024-06-04 A stunning lyrical commentary on the

constructions of race gender and class in the fraught nexus of a Black woman s personal experience and cultural history The Fair Housing Act passed in 1968 and more than fifty years later yours seems to be the only Black family on your block in Minneapolis You and your Black African husband both college graduates make less money than some White people with a felony record and no high school diploma You re the only Black student in your graduate program You just aren t working hard enough You re too sensitive Sandra Bland George Floyd Don t take everything so personally Amid the White smiles of Minnesota Nice and the Minnesota Paradox the insidious racism of an ostensibly inclusive place to live what do you do If you re Taiyon J Coleman you write In *Traveling without Moving* Coleman shares intimate essays from her life her childhood in Chicago growing up in poverty with four siblings and a single mother and the empowering decision to leave her first marriage She writes about being the only Black student in a prestigious and predominantly White creative writing program about institutional racism and implicit bias in writing instruction about the violent legacies of racism in the U S housing market about the maternal health disparities seen across the country and their implication in her own miscarriage She explores what it means to write her story and that of her family an act at once a responsibility and a privilege bringing forth the inherent contradictions between American ideals and Black reality Using a powerful blend of perspectives that move between a first person lens of lived experience and a wider ranging critique of U S culture policy and academia Coleman s writing evinces how a Black woman in America is always on the run always Harriet Tubman traveling with her babies in tow seeking safety desperate to survive thrive and finally find freedom Retail e book files for this title are screen reader friendly

Past & Present Thomas Carlyle,1904      **The Persistence of Taste** Malcolm Quinn,Dave Beech,Michael Lehnert,Carol Tulloch,Stephen Wilson,2018-05-11 This book offers an interdisciplinary analysis of the social practice of taste in the wake of Pierre Bourdieu s sociology of taste For the first time this book unites sociologists and other social scientists with artists and curators art theorists and art educators and art design and cultural historians who engage with the practice of taste as it relates to encounters with art cultural institutions and the practices of everyday life in national and transnational contexts The volume is divided into four sections The first section on Taste and art shows how art practice was drawn into the sphere of good taste contrasting this with a post conceptualist critique that offers a challenge to the social functions of good taste

through an encounter with art The next section on Taste making and the museum examines the challenges and changing social political and organisational dynamics propelling museums beyond the terms of a supposedly universal institution and language of taste The third section of the book Taste after Bourdieu in Japan offers a case study of the challenges to the cross cultural transmission and local reproduction of good taste exemplified by the complex cultural context of Japan The final section on Taste the home and everyday life juxtaposes the analysis of the reproduction of inequality and alienation through taste with arguments on how the legacy of ideas of good taste have extended the possibilities of experience and sharpened our consciousness of identity As the first book to bring together arts practitioners and theorists with sociologists and other social scientists to examine the legacy and continuing validity of Pierre Bourdieu s sociology of taste this publication engages with the opportunities and problems involved in understanding the social value and the cultural dispositions of taste after Bourdieu It does so at a moment when the practice of taste is being radically changed by the global expansion of cultural choices and the emergence of deploying impersonal algorithms as solutions to cultural and creative decision making

**Romanticism and the Contingent Self** Michael Falk, 2024-05-23 This book offers a new critique of selfhood in Romantic literature In the past Romanticism has been seen as an individualistic movement with writers believing in the centrality of the self Challenging this prevailing view of Romanticism and the modern self this study unveils an alternative tradition of Romantic writing in which the self is fragile degenerate non existent or in a word contingent It combines philosophy intellectual history literary studies and digital humanities and takes a transnational approach both in its coverage of philosophical thought and literature including case studies from England Ireland Scotland and colonial Australia with examples from American and European works as well The book also uses innovative digital techniques such as text analysis sentiment mining and network analysis to enrich the exploration of text and context It covers all major genres of Romantic writing fiction realist novels poetry the sonnet non fiction prose biography and drama gothic tragedy Providing a new framework for understanding the contingent self this book is of interest to scholars and students of Romantic literature philosophy of the self and digital humanities

**Women in Pragmatism: Past, Present and Future** Núria Sara Miras Boronat, Michela Bella, 2022-07-07 This book offers a selection of the papers of the Women in Pragmatism International Conference held at the University of Barcelona in January 2020 The conference gathered women and non binary scholars from twelve different countries This was the first pragmatist conference organized entirely by women and non binary persons It has initiated a stable network of mentoring and support analogous to other women philosophers organizations The book provides paths to reconstruct the roots of pragmatism integrating the works of women pragmatists of the past and linking them to the current developments of feminist and pragmatist topics Scholars of different countries status and backgrounds serve as a powerful example of the trend toward interdisciplinary cooperation and versatility we might expect for the future of pragmatism The book is of interest for scholars interested in both pragmatism and feminism from various perspectives

ranging from psychology to semiotics logic and sociology wishing to expand their horizons and understand their relevant interactions
