

Pre-Assignment Activity:

Students will get into three small groups, perform, and discuss the following scenario (Activity suggested by Mr. Collins, official activity derived from one suggested on Read Write Think).

***Kate is a high school student. Kate has a brand new iPod. At school, she brags about her iPod and tells many of her friends that it is so great now when she is running or driving because she can listen to her iPod.

Jimmy is a high school student who does not have an iPod. He is jealous of Kate's iPod and decides to break into her house and steal the iPod from her bedroom. Since he does not have a car, he asks his friend Alex to participate in the robbery by being the driver and lookout person.

Alex has a car and agrees to help Jimmy steal the iPod from Kate's house. During the robbery, Alex will stay in the car at all times and look to warn Jimmy if there are any problems.

One night while Kate is sleeping in her bedroom, Alex drives Jimmy to Kate's house. Kate's bedroom is on the second floor of the house, so Jimmy has to climb a ladder to break in through her window. Alex waits in the car.

While in Kate's bedroom, Jimmy trips in the dark and wakes Kate up. Jimmy tries to rush out the window with the iPod, but Kate tries to stop him. They scuffle in front of the window, and Kate accidentally falls to her death. Jimmy takes the iPod in Kate's room and hurries down the ladder. He feels bad since he didn't mean for Kate to get hurt. Jimmy runs to the car, and Alex, who is also very upset, drives them away.

DISCUSSION QUESTION: If you are a police officer, who do you arrest and why? If you are a judge, what punishment, if any, do you give to Jimmy? To Alex? Explain.

***Students will discuss their responses in small groups then report these responses to the whole group. After they have finished, they will also discuss the meaning and definition of FELONY MURDER. Both boys could be charged with felony murder and both could receive the same punishment. In some states, that punishment could be life in prison or even execution. After a class discussion on which each group chooses, I will try to make the connection that in the novel *Monster* the protagonist will find himself on trial for felony murder.

Irreducible Mind Edward F. Kelly, Emily Williams Kelly, Adam Crabtree, 2010 Current mainstream opinion in psychology neuroscience and philosophy of mind holds that all aspects of human mind and consciousness are generated by physical processes occurring in brains Views of this sort have dominated recent scholarly publication The present volume however demonstrates empirically that this reductive materialism is not only incomplete but false The authors systematically marshal evidence for a variety of psychological phenomena that are extremely difficult and in some cases clearly impossible to account for in conventional physicalist terms Topics addressed include phenomena of extreme psychophysical influence memory psychological automatisms and secondary personality near death experiences and allied phenomena genius level creativity and mystical states of consciousness both spontaneous and drug induced The authors further show that these rogue phenomena are more readily accommodated by an alternative transmission or filter theory of mind brain relations advanced over a century ago by a largely forgotten genius F W H Myers and developed further by his friend and colleague William James This theory moreover ratifies the commonsense conception of human beings as causally effective conscious

agents and is fully compatible with leading edge physics and neuroscience The book should command the attention of all open minded persons concerned with the still unsolved mysteries of the mind
