Modern World Politics Jean Kachiga, 2018-04-04 In modern world politics there exists a dynamic of change and an observable pattern of phenomena These phenomena consist of driving forces of new paradigms that their exigencies induce of new epochs that such exigencies provoke of adjustments made by states who may be initiators new comers late comers or inactive and of shifts in the hierarchy of world powers that the differentiated rate of their adjustment success produces causing what power shift theory refers to as hegemonic transition This book examines the conditions under which such change occurs the recurrence of such change in various epochs of the modern era and the pattern that such recurrence displays in order to explain the recurrent shift in the hierarchy of wealth status and power among peer states **Global**

Issues in the Context of Space Jean Kachiga, 2016-08-24 Global Issues in the Context of Spaces examines globalization using the concept of space to contextualize discussion of global issues The manuscript uses the concept of space to contextualize global issues because spaces are the theater of human activity Global issues result from specific dynamics emerging between people and their activities within specific spaces The growth of population the increase of human activity

and the usage of new spaces explain the complexity and challenges of global issues today European Journal of Tourism Research ,2020-03-01 The European Journal of Tourism Research is an open access academic journal in the field of tourism published by Varna University of Management Bulgaria Its aim is to provide a platform for discussion of theoretical and empirical problems in tourism Publications from all fields connected with tourism such as tourism management tourism marketing tourism sociology psychology in tourism tourism geography political sciences in tourism mathematics tourism statistics tourism anthropology culture and tourism heritage and tourism national identity and tourism information technologies in tourism and others are invited Empirical studies need to have either a European context or clearly stated implications for European tourism industry The journal is open to all researchers Young researchers and authors from Central and Eastern Europe are encouraged to submit their contributions Regular Articles in the European Journal of Tourism Research should normally be between 4 000 and 20 000 words Major research articles of between 10 000 and 20 000 are highly welcome Longer or shorter papers will also be considered The journal publishes also Research Notes of 1 500 2 000 words Submitted papers must combine theoretical concepts with practical applications or empirical testing The European Journal of Tourism Research includes also the following sections Book Reviews announcements for Conferences and Seminars abstracts of successfully defended Doctoral Dissertations in Tourism case studies of Tourism Best Practices The European Journal of Tourism Research is published in three Volumes per year There are no charges for publication The full text of the European Journal of Tourism Research is available in the following databases EBSCO Hospitality and Tourism Complete CABI Leisure Recreation and Tourism ProQuest Research Library The journal is indexed in Scopus and Clarivate Analytics Emerging Sources Citation Index The editorial team welcomes your submissions to the European Journal of Tourism Research The Kurds and the Politics of Turkey Deniz Çifçi,2019-08-08 The Kurds constitute the largest stateless nation in the world Their position in Turkey attracts attention both within the country and internationally particularly focusing on the demand for Kurdish independence Yet since the 1990s new Kurdish parties have formed within Turkey who have a variety of ideologies and demands that go beyond and differ in opinion on the question of independence Much of the present literature on the topic looks at the Kurds of Turkey as a homogenous group with unified political demands which oversimplifies their position within the political backdrop of Turkey This book seeks to provide nuance and depth to the current debate on Kurdish political agency and presence in Turkey Presently the Kurds political demands can be classified into four categories democratic autonomy their cultural rights to be granted federalism territorial autonomies and independence creation of a Kurdish nation state In a broad sense these models can also be ordered into two categories territorial political models federalism and independence and non territorial political models democratic autonomy and cultural rights Considering the diversity within the Kurdish community intertwinement of tribal ethnic and national identity and differences in their language religion and ideology there are several contributing factors for the emergence of the current varied political

demands of Kurds By explaining variation among the Kurds political demands through close analysis of existing at emerging parties this study challenges a deterministic approach to the Kurds which currently dominates the discourse The HISOFE Dictionary of Midnight Politics Fossungu, Peter Ateh-Afac,2014-12-01 Building on Fossungu s earlier works and essentially providing Africa with original critical and multi level analyses of the trio of globalization democracy and national determination this book theorizes that African states have to unite in order to have any impact in the global economy Using the failure of the Cameroon Goodwill Association of Montreal CGAM as a case study the book urges Africans to make hard choices and avoid politickerization and midnight politics in favour of fossungupalogy that is the science of straightforwardness necessitating the fearless looking at truth straight in the eye The questions of the book are many but do all boil down to whether or not Africans fear the truth and do not therefore do politics It is amazing that Africans in the West live in societies where fierce political competitors do embrace each other after one has defeated the other but they are incapable of looking their so called friends in the eye and saying for example Man I think you ve totally gotten it wrong this time Such comportment defines politickerization or negative competition While attempting some possible responses to the numerous queries it raises this book basically proffers the science of Four Eyesism as a discipline that all African schools need to institute and make a compulsory subject if the vandalized continent would have to be awakened to its realities This book is rich in Fossungu s dazzling capacity to invent define and use a multitude of new terminological constructs informed by African experiences **Foundations of Comparative Politics** Kenneth Newton,Jan W. van Deth,2021-01-21 Now in its fourth edition this textbook gives a clear and concise account of the government and politics of democratic states comprehensively updated with recent developments It provides an ideal guide for undergraduate students who want to understand how and why democratic systems differ between countries and how they are changing in the modern world It is written and structured in an easy to follow style enabling students to gain a thorough understanding of the explanations behind complex ideas and theories The Briefings and Controversies sections give life to the analyses with illustrations drawn from around the globe whilst its Key Term entries provide students with a route through the concepts of political science The fourth edition has been fully revised to reflect recent changes in political attitudes and behaviour voting parties party systems and ideologies The final chapter addresses the future of democratic states facing with these changes and challenges by examining democratic crisis populism and post democracy *The Routledge Handbook of Religious and Spiritual Tourism* Daniel H. Simon, Joseph Romance, 2013-02-15 So often political science is introduced to students as a segmented field The Challenge of Politics instead enables students to see how the subfields converge around a set of crucial questions

can we as citizens and students articulate and defend a view of the good political life and its guiding political values Can we develop a science of politics to help us understand significant political phenomena the empirical realities of politics Can we bring a high level of political prudence or wisdom to bear on judgments about politics and public issues Can citizens and students creatively address the future of politics Riemer Simon and Romance aim to harmonize the valuable lessons of classic and contemporary theory as well as to reconcile politics to scientific and empirical study The book gives students an avenue to explore the impact of philosophy and ideology to recognize major forms of government to evaluate empirical findings and to understand how policy issues directly affect people s lives Throughout the authors look at political dynamics of American comparative and international affairs While continuing to pursue its distinctive normative approach and showing politics to be a potentially humanizing enterprise this new edition of Challenge has been revised and updated for major world events like the global financial crisis recent elections in the U S and elsewhere important policy decisions like the recent Supreme Court ruling in the U S on healthcare and the aftermath of the Arab Spring Based on reviewer feedback it has also been substantially streamlined throughout *Institutional Theory in Political Science, Fourth Edition* B.
