Essential Statistics For Social Research

Michael Malec, 2018-10-08 We need only scan a newspaper or magazine turn on a news broadcast or open a sociology text or journal to see that we live in an age that is heavily dependent on statistical information The extent this dependency is such that it is rather difficult to be an educated person without having at least a passing acquaintance with basic statistics More to the point it is virtually impossible to be a capable social scientist without having a definite if elementary understanding of some basic statistics and statistical methods of analysis But a casual acquaintance with a few simple statistics will not serve the social scientist who attempts to read competently the literature of the field And if one wishes to do quantitative social research and most research published today is quantitative a more thorough knowledge of statistics is imperative The aspiring sociologist need only examine the books and articles that are being published today for evidence of this claim A very large portion of the articles published in the major sociology journals use some form of statistical analysis Some of these articles and other works published sociologists are incomprehensible without a statistics background others will simply be read less intelligently or with a lessened sense of appreciation or criticism

Introduction to Statistical Methods for Financial Models

Thomas A Severini, 2017-07-06 This book provides an introduction to the use of statistical concepts and methods to model and analyze financial data The ten chapters of the book fall naturally into three sections Chapters 1 to 3 cover some basic concepts of finance focusing on the properties of returns on an asset Chapters 4 through 6 cover aspects of portfolio theory and the methods of estimation needed to implement that theory The remainder of the book Chapters 7 through 10 discusses several models for financial data along with the implications of those models for portfolio theory and for

understanding the properties of return data The audience for the book is students majoring in Statistics and Economics as well as in quantitative fields such as Mathematics and Engineering Readers are assumed to have some background in statistical methods along with courses in multivariate calculus and linear algebra *Journal of International Doctoral Research (JIDR) Volume 4, Number 1, December 2015* Gillian Warner-Söderholm, Pat Joynt, Petter Gottschalk, Claudette Knight, Clare Stone, Katarina M. Pajchel, Michael Benson, Tor Grenness, 2015-12-02 This forth volume of the JIDR is devoted to a wide range of research themes which are all linked to the concept of diversity both implicitly and explicitly In addition this volume showcases research related to the doctorate journey As the mission statement and title of our journal suggests our goal is to promote excellence in publications with a focus on both doctorate studies and also on research disseminated from specific doctorate studies In next year s journal empirical data will be presented which investigates variables which impact the safe navigation of the doctoral voyage Elements such as choice of research methodology professional background family issues career path gender and choice of supervisor all impact the success rate of PhD candidate Two of our articles this year therefore showcase the doctoral research journey
