*Ethical theory and business* Tom L ed Beauchamp,1983      *Sustainability and Design Ethics, Second Edition* Jean Russ,2018-11-12

Sustainability as a concept remains just as challenging and important today as it was when the first edition of this book was published The Second Edition of Sustainability and Design Ethics explores the ethical obligations of knowledgeable people such as design professionals taking into consideration the numerous changes that have taken place in recent years This book expands the growing discussion on the principles of sustainability to further include the role of businesses and governments and considers the general recognition that modern society has occurred at the expense of nature with significant social and environmental impacts Are there limits to the individual s ethical obligation How do such obligations change or adapt to a world of sustainable design As the shift toward sustainability proceeds designers ethical underpinnings will be confronted with a wider range of people and concerns whose interests must be weighed The design professionals are likely to be among the lead in the shift toward sustainability because of the special knowledge and expertise provided to them by their education experience and distinctive position in society The entire world of design is being reassessed and the guiding principles and ethics of design reflect this change New to the Second Edition Expanded international scope that includes a comparison of professional organizations in the EU Australia Canada Japan and China Discusses how cultural differences between the West and China result in different underlying foundations for professional ethics Revised analyses to reflect changes in regulatory and technical areas such as the inevitable rise of artificial intelligence in design Updated arguments reflecting the need for sustainability and the designer s role and obligations Updated references pertaining to the progress of sustainable design and development Sustainability and Design Ethics Second Edition is an attempt to explore the ideas and principles that might contribute to the thinking of thoughtful design professionals The emergence of green design discussed in this book is used to evidence progress but also to demonstrate the degree to which more is needed

**Corporations and Citizenship** Greg Urban,2014-05-08 President Theodore Roosevelt once proclaimed Great corporations exist only because they are created and safeguarded by our institutions and it is therefore our right and duty to see that they work in harmony with those institutions But while corporations are ostensibly regulated by citizens through their governments the firms in turn regulate many aspects of social and political life for individuals beyond their own employees and the communities that support them Corporations are endowed with many of the same rights as citizens such as freedom of speech but are not themselves

typically constituted around ideals of national belonging and democracy In the wake of the global financial collapse of 2008 the question of what relationship corporations should have to governing institutions has only increased in urgency As a democratically sanctioned social institution should a corporation operate primarily toward profit accumulation or should its proper goal be to provision society with needed goods and services Corporations and Citizenship addresses the role of modern for profit corporations as a distinctive kind of social formation within democratic national states Scholars of legal studies business ethics politics history and anthropology bring their perspectives to bear on particular case studies such as Enron and Wall Street as well as broader issues of belonging social responsibility for profit higher education and regulation Together these essays establish a complex and detailed understanding of the ways corporations contribute positively to human well being as well as the dangers that they pose Contributors Joel Bakan Jean Comaroff John Comaroff Cynthia Estlund Louis Galambos Rosalie Genova Peter Gourevitch Karen Ho Nien h Hsieh Walter Licht Jonathan R Macey Hirokazu Miyazaki Lynn Sharp Paine Katharina Pistor Amy J Sepinwall Jeffery Smith Jeffrey L Sturchio Greg Urban
