Inazu, 2018-08-03 In the three years since Donald Trump first announced his plans to run for president the United States seems to become more dramatically polarized and divided with each passing month There are seemingly irresolvable differences in the beliefs values and identities of citizens across the country that too often play out in our legal system in clashes on a range of topics such as the tensions between law enforcement and minority communities How can we possibly argue for civic aspirations like tolerance humility and patience in our current moment In *Confident Pluralism* John D Inazu analyzes the current state of the country orients the contemporary United States within its broader history and explores the ways that Americans can and must strive to live together peaceably despite our deeply engrained differences Pluralism is one of the founding creeds of the United States yet America's society and legal system continues to face deep unsolved structural problems in dealing with differing cultural anxieties and differing viewpoints Inazu not only argues that it is possible to cohabitate peacefully in this country but also lays out realistic guidelines for our society and legal system to achieve the new American dream through civic practices that value toleration over protest humility over defensiveness and persuasion over coercion With a new preface that addresses the election of Donald Trump the decline in civic discourse after the election the Nazi march in Charlottesville and more this new edition of *Confident Pluralism* is an essential clarion call during one of the most troubled times in US history Inazu argues for institutions that can work to bring people together as well as political institutions that will defend the unprotected *Confident Pluralism* offers a refreshing argument for how the legal system can protect peoples personal beliefs and differences and provides a path forward to a healthier future of tolerance humility and patience

seem to be more beneficial for constructive engagement whereas others increase intolerance polarization and conflict Through an analysis of the reasons underpinning a critique of religion in institutional contexts of secular democratic societies A Constructive Critique of Religion explores how constructive interaction and critique can be developed across diverse interests It shows how social and cultural conditions shaping these institutions enable and structure a critical and constructive engagement across diverging worldviews A key argument running through the book is that to develop constructive forms of critique a more thorough and systematic investigation of resources for criticism located within religious worldviews themselves is needed Chapters also address how critique of Islam and Christianity in particular is expressed in areas such as academia the law politics media education and parenting with a focus on Northern Europe and North America The interdisciplinary approach which combines theoretical perspectives with empirical case studies contributes to advancing studies of the complex and contentious character of religion in contemporary society
