XaaS: Everything-as-a-service - The Lean And Agile Approach To Business Growth Shantanu Bhattacharya, Lipika Bhattacharya, 2021-10-13 XaaS Everything as a Service The Lean and Agile Approach to Business Growth takes the reader into the bold new world of pay per use for a product or service From the perspective of the customer the servitization model yields multiple benefits the consumer can try out the product service at a relatively low cost the risk is mitigated capital expenses can be converted into operating expenses it is not needed to forecast how often the product service is used and only parts of the product service needed can be used Similarly a provider can benefit by having a larger market coverage steadier stream of revenues upgrades as and when needed sharing of fixed assets across consumers practicing of value based pricing and unbundling or bundling utility for consumers using appropriate pricing techniques However this nanoization of products services is tricky and has to be designed carefully This

book provides a set of recipes to providers to adopt the XaaS model by changing the provider's mindset dividing the product service forces the provider to take a value driven approach to his product service and consequently eliminate all non value added activities The requirements of the XaaS model serve both as an objective to the innovation and internal processes of the provider and as guide to understanding the customer's needs The book also covers data acquisition data analysis and synthesis and data application needs of the XaaS model with simple examples and case studies from the business world of firms that achieve these objectives successfully

Electric Vehicles In Shared Fleets: Mobility Management, Business Models, And Decision Support Systems Kenan Degirmenci, Thomas M Cerbe, Wolfgang E Pfau, 2022-04-28 The electrification of shared fleets offers numerous benefits including the reduction of local emissions of pollutants which leads to ecological improvements such as the improvement of air quality Electric Vehicles in Shared Fleets considers a holistic concept for a socio technical system with a focus on three core areas integrated mobility solutions business models for economic viability and information systems that support decision making for the successful implementation and operation of electric vehicles in shared fleets In this book we examine different aspects within these areas including multimodal mobility grid integration of electric vehicles shared autonomous electric vehicle services relocation strategies in shared fleets and the challenge of battery life of electric vehicles Insights into the future of transport are provided which is predicted to be shared autonomous and electric This will require the expansion of the charging infrastructure to provide adequate premises for the electrification of transportation and to create market demand

United States Congressional Serial Set, Serial No. 14918, House Reports Nos. 548-566, An Aviation Journey Peter Marosszéky FRAeS, 2023-07-19 From the end of the nineteenth century to the beginning of the twenty first century spanning a period of 168 years and growing the world has seen an incredible advancement in technology associated with man's efforts to conquer flight and ultimately space The first ascent of a hot air balloon powered by a propeller to the latest development in rocketry and the intervening discoveries and developments in between one has to be in awe of not only what has transpired but also the speed at which these occurred This book reflects a period of 60 years that the writer has experienced in that time the changes in technology and the way we have adapted to these changes is inspiring resulting in a world where the yoke of distance and time has been harnessed The greatest challenges that now face the aviation world is the ability to teach and understand the new and in some cases the old technologies to the young aviators Airlines and aircraft operators are faced with a constant challenge of not only obtaining the right people for the myriad of tasks but also to provide them with the appropriate levels of training regulatory compliance

Business Management, 1968 **Advances in Mobility-as-a-Service Systems** Eftihia G. Nathanail, Giannis Adamos, Ioannis Karakikes, 2020-11-03 This book gathers together innovative research and practical findings relating to urban mobility transformation It is especially intended to provide academicians researchers practitioners and decision makers with effective strategies and techniques that can support urban mobility in a sustainable way The chapters which

report on contributions presented at the 5th Conference on Sustainable Urban Mobility held virtually on June 17-19, 2020 from Greece cover the thematic areas of social networks and traveler behavior, applications of technologies in transportation and big data analytics, transport infrastructure and traffic management and transportation modeling and impact assessment. Special attention is given to public transport and demand responsive systems, electromobility, micromobility and automated vehicles. The book addresses the challenges of the near future, highlighting the importance of knowledge transfer and it is intended to foster communication among universities, industries and public administration.
