In Food We Trust Courtney I. P. Thomas, 2014-11-01 One of the great myths of contemporary American culture is that the United States food supply is the safest in the world because the government works to guarantee food safety and enforce certain standards on food producers processors and distributors In reality U S food safety administration and oversight have remained essentially the same for more than a century with the Pure Food and Drug Act and the Federal Meat Inspection Act of 1906 continuing to frame national policy despite dramatic changes in production processing and distribution throughout the twentieth century In Food We Trust is the first comprehensive examination of the history of food safety policy in the United States analyzing critical moments in food safety history from Upton Sinclair's publication of *The Jungle* to Congress's passage of the 2010 Food Safety Modernization Act With five case studies of significant food safety crises ranging from the 1959 chemical contamination of cranberries to the 2009 outbreak of salmonella in peanut butter In Food We Trust contextualizes a changing food regulatory regime and explains how federal agencies are fundamentally limited in their power to safeguard the food supply
