Today s society demands to train children and adolescents who develop in an environment based on respect and the
promotion of educational values This aspect is especially relevant to promoting physical activity and its relationship with
healthy habits such as the consumption of unprocessed foods the reduction of a sedentary lifestyle and the improvement of
adherence to sports In this sense the World Health Organization warns that the current rates of overweight and obesity are
very high and that we must combat them From formal education you can help improve healthy habits with educational
programs and especially in Physical Education a subject where the work of physical social and cognitive well being has
special relevance Since the 20th century studies and research that have aimed to combat unhealthy habits in educational
centres and sports schools have increased Not only by promoting physical activity within the school but above all by seeking
to generate adherence towards the future of students and athletes
