Hotel Design Planning And Development Walter A Rutes, Richard H Penner, Lawrence Adams, 2001-06-05 Previous editions published 1985 as Hotel planning and design Hotel Design, Planning and Development Sophea Tieng, 2018-12 There is a huge competition between the business resorts and hotels for the sophisticated cadre of travelers all over the world The operators and developers in hotel industry look forward to interior designers and architects for creating interesting and unique experiences for their guests For many decades the hotel industry had primarily focused upon the operations and functionality The concept of designing and development of a hotel is rooted in the ethnicities of hospitality to the travelers which dates back to the ancient times Various kinds of hotels have evolved in many different countries The interior styling and designing of hotels are very diverse and numerous variations are there like inns motels hotels and spas and resort Many different aspects influence the sense of a place like small details of furnishing interiors buildings and landscapes In most of the today's high end developments a guest room can be a conventional serviced apartment or a hotel room and even a phenomenon which has changed the standalone hotel to a mini community having lots of different uses From an architect's perspective the apartment unit or a guestroom is the core building block which sets a structure for the building Since architects are involved in the projects of hospitality for decades it is a fact that there is no one size for all in the hotel industry Thus this book will serve the main purpose of guiding as to what is hotel development planning and designing The most happening and unique interiors of a hotel transform a simple stay into a successful and unforgettable experience and makes the guests as the drivers of this journey In a small frame of time internet has emerged to become the main source of communication for the development team of the hotels and guests Rapid advancement in technology has supported the implementation of sustainable practices in operations and design While detailing the activities the allocation of space and relationships in the building along with an excellent and resourceful program provides aids in establishing the way a building is situated on a site The summary of all the space allocation relationships and activities in a hotel is known as design philosophy or design brief and a building program This book brings to the readers the planning and development of hotel property the philosophy behind the designs of a hotel and the types of hotels which will include the hotel designing for
