KNIGHTS: WARRIORS ON HORSEBACK (Pages 364–365)**What was the role of knights?**

Nobles were constantly at war with one another. They raised private armies. The armies included knights, soldiers who fought on horseback. These knights became the most important warriors during the Middle Ages.

By the 11th century, nobles used their armies of mounted knights to fight for control of land. When nobles won battles, they gave some of the new land to their knights. The knights could use the wealth from this land to pay for weapons, armor, and horses. Knights devoted much of their time to improving their skill at fighting.

1. What was the main duty of knights?

KNIGHTHOOD AND THE CODE OF CHIVALRY (Pages 365–367)**What was required of a knight?**

By the 1100s, a new code of conduct for knights arose. This code of **chivalry** required that knights fight bravely for three masters: their lord, God, and their chosen lady. Knights were also required to protect the weak and poor. While the code set high standards, most knights failed to meet all of the standards.

The son of a noble began training to become a knight at an early age. At around age 7, his parents sent him off to the castle of another lord. There he would learn good manners. The boy would also practice fighting skills. At around age 14, he would become the servant of a knight. Then at age 21, he would finally become a knight himself.

Knights gained experience by fighting in combats called **tournaments**. These were fierce, but real battles, especially those fought at castles, were far more violent.
